CORRIGENDUM

Integrating circadian dynamics with physiological processes in plants

Kathleen Greenham and C. Robertson McClung

Nature Reviews Genetics **16**, 598–610 (2015)

In this article, the authors have updated Figure 1 by removing the repressive post-translational regulation arrow originally linking ZEITLUPE (ZTL) to the evening complex (EC), which is a multi-protein complex consisting of EARLY FLOWERING 4 (ELF4), ELF3 and LUX ARRHYTHMO (LUX). This alteration is because this regulatory relationship is not supported by the current literature. The authors apologize for this error.
