

TRANSMEMBRANE ADAPTOR PROTEINS: ORGANIZERS OF IMMUNORECEPTOR SIGNALLING

Václav Hořejší, Weiguo Zhang and Burkhard Schraven

Nature Reviews Immunology **4**, 603–616 (2004).

When published, in Figure 2, the tyrosine-based signalling motifs of the molecule LIME were misaligned. See the corrected version below.

Raft-associated TRAPs

Non-raft-associated TRAPs
