

ONLINE CORRESPONDENCE

Nature Reviews Immunology publishes items of correspondence online. Such contributions are published at the discretion of the Editors and can be subject to peer review. Correspondence should be no longer than 500 words with up to 15 references and should represent a scholarly attempt to comment on a specific Review or Perspective article that has been published in the journal.

The following correspondence has recently been published. To view correspondence, please go to our homepage at: <http://www.nature.com/reviews/immunol> and follow the link from the current table of contents.

Immunomodulatory role of statins in autoimmune disease: is there a role for human $\gamma\delta$ T cells?

Francesco Dieli and Nadia Caccamo

This correspondence relates to the article:

Statin therapy and autoimmune disease: from protein prenylation to immunomodulation

John Greenwood, Lawrence Steinman and Scott S. Zamvil

Nature Rev. Immunol. **6**, 358–370 (2006)
