CORRIGENDUM

New insights into pre-BCR and BCR signalling with relevance to B cell malignancies

Robert C. Rickert

Nature Reviews Immunology **13**, 578–591 (2013)

In the original version of this article, in the section under the subheading “NF- κ B activity in B cell survival and neoplasia” on page 587, reference 97 should also have been included in the following sentence “In ABC-DLBCL, oncogenic amino acid substitutions in the coiled-coiled region of CARMA1 disrupt the intramolecular inhibition that is otherwise mediated by the linker region, which results in the enhanced association of CARMA1 with BCL-10 and in sustained NF- κ B activation⁹⁶ (Fig. 4).” The author apologizes for this error.
