Immune adaptations that maintain homeostasis with the intestinal microbiota

Lora V. Hooper and Andrew J. Macpherson

Nature Reviews Immunology **10**, 159–169 (2010)

In figure 4 of the original article, the cytokines that promote the differentiation of T helper 2 (T_H2) cells and T_H17 cells were included in the wrong order. This has now been corrected in the online HTML and PDF versions of the article. *Nature Reviews Immunology* apologizes for this error.
