## Organizing the cell cortex: the role of ERM proteins

*Richard G. Fehon, Andrea I. McClatchey & Anthony Bretscher*

*Nature Reviews Molecular Cell Biology* 11, 276–287 (2010).

On page 277 of the above article, there is a mistake with the definition and alternative name of NIK. This should be NCK-interacting kinase (also known as MAP4K4) and not NF- $\kappa$ B-inducing kinase (also known as MAP3K14) as stated. We apologize for any confusion caused to the readers.
