The predator becomes the prey: regulating the ubiquitin system by ubiquitylation and degradation

Allan M. Weissman, Nitzan Shabek and Aaron Ciechanover

Nature Reviews Molecular Cell Biology **12**, 605–620 (2011)

On page 619 of the above article, there was a mistake in the highlighted reference comment under reference 54: “53” in the second sentence should have been “54” (“Reference 54 is the first clear example of the targeting of one E3 family by another.”). We apologize for any confusion caused to readers.
