ERRATUM

Biogenesis and homeostasis of chloroplasts and other plastids

Paul Jarvis and Enrique López-Juez

Nature Reviews Molecular Cell Biology **14**, 787–802 (2013)

In the above article, figure 4 (page 794) had an incorrect label, which indicated that plastid DNA-encoded proteins are co-transcriptionally targeted to thylakoids, whereas targeting actually occurs co-translationally. Also, on pages 796–798 of the article, there were spelling mistakes in the definitions of PDV1 and COP1, which should be PLASTID DIVISION 1 and CONSTITUTIVE PHOTOMORPHOGENESIS 1, respectively. Finally, in the reference list, the highlighted description for reference 67 was incorrectly positioned below reference 63, and the highlighted description for reference 128 was incorrectly positioned below reference 26. These corrections have been made to the online version of the article. *Nature Reviews Molecular Cell Biology* apologizes for any confusion caused to readers.
