CORRIGENDUM

Molecular mechanisms of *Escherichia coli* pathogenicity

Matthew A. Croxen and B. Brett Finlay

Nature Reviews Microbiology **8**, 26–38 (2010)

On page 31 of this article, in the third paragraph of the section 'Enterotoxigenic *Escherichia coli*', the sentence "This leads to increased intracellular levels of cyclic GMP and activates the cystic fibrosis transmembrane conductance regulator (CFTR), resulting in impaired absorption of Na⁺ and H₂O efflux into the lumen⁶³," should have read "This leads to increased intracellular levels of cyclic GMP, resulting in impaired Na⁺ absorption, as well as activation of the cystic fibrosis transmembrane conductance regulator (CFTR)⁶³." The authors apologize to the readers for any misunderstanding caused.
