CORRIGENDUM

Cell-cycle control and cortical development

Colette Dehay and Henry Kennedy

Nature Reviews Neuroscience **8**, 438–450 (2007)

The name of the gene *Fezl* was incorrectly spelled in several instances. The gene under consideration in this article was *Fezl* (forebrain embryonic zink-finger like) and not *Fez1* (fasciculation and elongation protein zeta1). *Fezl* was incorrectly spelled on page 440, left column, lines 5 and 8; in figure 2, panel b; and on page 450 in the DATABASES box. The correct database link for *Fezl* is: http://www.ncbi.nlm.nih.gov/sites/entrez?Db=gene&Cmd=ShowDetailView&TermToSearch=54713&ordinalpos=1&itool=EntrezSystem2.PEntrez.Gene.Gene_ResultsPanel.Gene_RVDocSum

Also, the text that was highlighted in connection with reference 60 actually referred to reference 62.
