CART peptides: regulators of body weight, reward and other functions

G. Rogge, D. Jones, G. W. Hubert, Y. Lin and M. J. Kuhar

Nature Reviews Neuroscience **9**, 747–758 (2008)

In figure 4a of the article, the doses of the bilateral CART (cocaine- and amphetamine-regulated transcript) peptide infusions were incorrectly given in milligrams. In both the figure and the legend, the doses should be 0.0, 1.0 or 2.5 μg per side.
