

Corrigendum: Incorporation of aminoacyl-tRNA into the ribosome as seen by cryo-electron microscopy

Mikel Valle, Andrey Zavialov, Wen Li, Scott M Stagg, Jayati Sengupta, Rikke C Nielsen, Poul Nissen, Stephen C Harvey, Måns Ehrenberg & Joachim Frank

Nat. Struct. Biol. 10, 899–906 (2003).

Figure 6 in this paper was missing labels. In panel a, the protein ribbons (green helices and strands) correspond to two domains, CTD and NTD, of the L11 protein. Panel a with the appropriate labels is printed here. We apologize for any inconvenience this may have caused.
