

## Subject Index to Volume 23

- Acromegaly, somatomedin values in urine, 151
- Acyl-coenzyme A dehydrogenase, long-chain, deficiency, fibroblast studies, 603
- $\beta$ -Adrenoreceptor, stimulation and contractile state, role, patent ductus arteriosus, preterm lamb, 316
- Age, indomethacin effects and, hypoxic vasoconstriction, neonatal lamb lung, 580
- Airway  
activity, surface cooling effect, lamb, 257  
immature, ventilation effect, 519  
pressure, increasing, high-frequency oscillatory ventilation and, 628
- Alanine, blood concentrations, effect of fasting, rat, 241
- Aluminum, hepatobiliary dysfunction related to, rat, 275
- Alveolar fluid, changes at birth, term and premature lamb, 418
- Alveoli, macrophage, status, bronchopulmonary dysplasia, 470
- Amino acids, calcium-sensitive uptake, by human placental slices, 9
- Anemia, chronic, cardiovascular adaptations, newborn lamb, 621
- Antibiotics, effect on intestinal heme oxygenase, rat, 50
- Antibody, longitudinal development, very low birth weight premature infants, 14
- Apnea, graded duration, cardiovascular and neurophysiologic changes, piglet, 402
- Apolipoprotein A-1, in umbilical cord blood, gestational age and, 348
- Arousal response, repeated upper airway obstruction and, neonatal lamb, 191
- Atenolol, effects on growth hormone release, constitutional delay of growth, prepubertal boys, 393
- Atopy, infantile recurrent otitis media and, 509
- Audiometry, reflex modification, acoustic sensory processing assessed by, neonate, 357
- Bacteremia, Gram-positive, thromboxane-associated pulmonary hypertension during, piglet, 553
- Bile acid  
efflux, from suckling rat hepatocytes, 364  
uptake from terminal ileum, cystic fibrosis, 323
- Bilirubin  
conjugation and production, effect of tin-protoporphyrin, cholestatic rat, 163  
effects on brain energy metabolism, during normoxia and hypoxia, 569  
short-term exposure, synaptic activation reduced by, rat brain, 453  
synapsin I phosphorylation, rat cerebral cortex, 219  
uptake, role of free bilirubin acid salt, 443
- Birth, pulmonary alveolar subphase changes, term and premature lamb, 418
- Blood flow  
cerebral  
alterations, during and after partial ischemia, piglet, 206  
velocity, spectral analysis, premature infants, 398
- Blood pressure  
apnea effect, piglet, 402  
caffeine effect, rat and chick embryo, 200  
ethnic variation, preadolescent children, 270  
spectral analysis, premature infants, 398
- Brain  
cerebral metabolism, newborn lamb with polycythemia, 329  
energy, metabolism, bilirubin effects, during normoxia and hypoxia, 569  
glucose metabolism, euglycemic hyperinsulinemia and, newborn dog, 474  
synaptic activation in transverse hippocampal slices, bilirubin exposure and, rat, 453
- Brainstem, auditory evoked potential, abnormalities, jaundiced Gunn rat, 306
- Bronchopulmonary dysplasia  
alveolar macrophage status in, 470  
water balance control, role of endogenous vasopressin, infants, 86
- Caffeine  
hemodynamic changes and, rat and chick embryo, 200  
N-demethylation, maturation in infancy, 632
- Calcium  
absorption, measurement, premature infants, 589  
role in cellular regulation of amino acid transport, 9
- Capillary, blood cell velocity, videophotometric microscopic determination, infants, 585
- Cardiac-sympathetic axis, role in cardiac growth, neonatal nutritional deprivation or enhancement, rat, 423
- Carnitine, deficiency, fasting free fatty acids and, 491
- Catecholamine  
conjugated versus free acidic metabolites, neuroblastoma diagnosis, 576  
contractile state and, patent ductus arteriosus, preterm lamb, 316
- Catheterization, glucose and lactate changes, acute versus chronic catheterized rats, 235
- Chloramphenicol, pharmacokinetics, effect of exocrine pancreatic function, cystic fibrosis, 388
- Cholecystokinin-octapeptide, effect on amylase activity, fetal pancreas, 539
- Cholestasis, bilirubin conjugation and production, effect of tin-protoporphyrin, rat, 163
- Cholesterol, high-density lipoprotein, apolipoprotein A-1 and, 348
- Chorionic gonadotropin, human, luteinizing hormone and, dynamics, first 7 days of life, 530
- Circulation, arterial and portal venous, galactose, glucose, and lactate concentrations after nursing, newborn lamb, 598
- Coagulation, neonatal, fibrinogen turnover, lamb, 249
- Collagen gel, motility of human milk macrophages in, 449
- Cromolyn sodium, aerosolized, pulmonary vascular response, lamb, 513
- Cysteamine, effectiveness in nephropathic cystinosis, compared with phosphocysteamine, 616
- Cystic fibrosis  
bile acid uptake from terminal ileum in, 323  
chloramphenicol pharmacokinetics, effect of exocrine pancreatic function, 388
- Cystinosis, nephropathic, comparison, cysteamine and phosphocysteamine effectiveness, 616
- Dazmegrel, streptococcal group B sepsis, effects of late treatment, neonate, 352
- Dehydration, cellular, senescent neonatal erythrocytes, 288
- Diabetes, offspring of affected parents, thiamin status, 574
- Diaphragm  
electromyographic activity  
effect of hypercapnia and hypoxia, piglet, 54  
obstructive sleep apnea, 1  
unilateral paralysis, postnatal lung growth inhibited by, piglet, 463
- Diarrhea, viral, glucocorticoid effect on jejunum during, piglet, 279
- Dichloroacetate, skin fibroblast culture, pyruvate metabolism disorders detected by, 561
- Digitalis  
receptor  
erythrocytes, preterm infants and adults, 414
- Dipalmitoyl phosphatidylcholine, pulmonary surfactant and, in vitro and in vivo effects, 484
- DNA, synthesis, aspirin-like drug effects, pregnant rats and offspring, 93
- Drugs  
antibiotic, effect on intestinal heme oxygenase, rat, 50  
aspirin-like, effect on lymphocyte transformation, pregnant rats and offspring, 93
- Electroencephalogram, apnea effect, piglet, 402
- Embryo, developmental hemodynamic changes, caffeine effect, chick and rat, 200
- Enteral feeding, *see* Nutrition
- Enteritis  
bacterial, malnutrition effects on intestinal repair after, infant rabbit, 408  
viral, glucocorticoid effect on jejunum during, piglet, 279
- Enzyme  
intestinal, development, infant miniature pig, 311  
pancreatic, reserpine effect on adaptive response to diet, rat, 176
- Epidermal growth factor

- effect on amylase activity, fetal pancreas, 539  
 receptor ontogeny, hepatic, neonatal hyperthyroidism and, mouse, 557
- Epinephrine**  
 release, naloxone effect, during hypoxia, fetal sheep, 343  
 renal vascular effect, fetal, newborn, and adult sheep, 181
- Erythrocyte**  
 bilirubin uptake, role of free bilirubin acid salt, 443  
 digitalis receptor in, comparison, preterm infants and adults, 414  
 senescent neonatal, cellular dehydration and immunoglobulin binding in, 288
- Erythropoiesis, biosynthetic insulin-like growth factor-1 effect, neonatal rat, 298**
- European Society for Paediatric Endocrinology, abstracts of annual meeting, 105**
- Fasting, effect on glucose, lactate, alanine, and glutamate concentrations, rat, 241**
- Fatty acid**  
 catabolism, effect of salicylic acid, 338  
 composition, intestinal microvillus membrane, newborn and adult rat, 439  
 free, fasting, effect of carnitine deficiency, 491  
 oxidation  
 control, small intestine, suckling rat, 262  
 liver, postterm rabbit fetus, 224
- Fetus**  
 airway activity, surface cooling effect, lamb, 257  
 breathing movements, effect of thyrotropin-releasing hormone, sheep, 72  
 conversion of thyroxine to 3,3',5'-triiodothyronine, rat, 196  
 development, apolipoprotein A-1 during, 348  
 epinephrine effect, renal vascular bed, sheep, 181  
 glucose utilization  
 effects of insulin and glucose concentrations, lamb, 381  
 fed and fasted pregnant rabbits, 480  
 heart rate during hypoxia, transcutaneous monitoring, dog, 548  
 hypoxemia, renal hemodynamic responses to, lamb, 155  
 hypoxia, naloxone effect on epinephrine release, lamb, 343  
 lung compliance, pulmonary surfactant effect, rabbit, 23  
 pancreas, amylase activity, effect of cholecystokinin-octapeptide, insulin, glucagon, triiodothyronine, and epidermal growth factor, 539  
 protein turnover, after maternal malnutrition, rat, 534  
 substrate utilization, last trimester, sheep lung, 606
- Fibrinogen, turnover, newborn lamb, 249**
- Fibroblast**  
 human skin, metabolism of branched chain 2-oxo acids, 40  
 long-chain acyl-coenzyme A deficiency, biochemical studies, 603  
 skin, culture, pyruvate metabolism disorders detected by, 561
- Galactose, in portal venous and arterial circulations, after nursing, newborn lamb, 598**
- Gastrointestinal tract, intestinal absorption of lead, suckling rat, 58**
- Genioglossus, electromyographic activity, obstructive sleep apnea, 1**
- Glucagon, effect on amylase activity, fetal pancreas, 539**
- Glucocorticoid**  
 effect on jejunum, during acute viral enteritis, piglet, 279  
 plasma, premature infants, first week of life, 525
- Gluconeogenesis, premature appearance, liver, postterm rabbit fetus, 224**
- Glucose**  
 blood concentrations  
 effect of fasting, rat, 241  
 effect on utilization, fetal lamb, 381  
 in portal venous and arterial circulations, after nursing, newborn lamb, 598  
 metabolism, euglycemic hyperinsulinemia and, cerebral cortex, neonatal dog, 474  
 portal venous and aortic changes, chronically catheterized rat, 235  
 utilization  
 effects of insulin and glucose concentrations, fetal lamb, 381  
 placenta and fetal tissues, fed and fasted pregnant rabbits, 480
- Glutamine, blood concentrations, effect of fasting, rat, 241**
- Glycogen storage disease, type 1A, liver metabolism in, 375**
- Growth and development**  
 constitutional delay, atenolol effects on growth hormone release, prepubertal boys, 393  
 diastolic ventricular interaction and, 466  
 effect of protein-calorie malnutrition on developing liver, 505  
 excitation-contraction coupling, developing myocardium, rabbit, 428  
 immunoreactive somatomedin C detection in urine, normal subjects, pituitary dwarfs, acromegalics, 151  
 phosphate transport by intestinal endoplasmic reticulum, during maturation, 612  
 urinary growth hormone measurement, children with normal and abnormal growth, 89  
 ventilation effect on immature airways, 519
- Growth hormone**  
 atenolol effects, constitutional delay of growth, prepubertal boys, 393  
 recombinant human, treatment monitoring, 167  
 urinary excretion, quantitation, normal and abnormal growth, 89
- Heart**  
 atrioventricular nodal function, immature canine heart, 99  
 diastolic ventricular interaction, developmental changes, 466  
 myocardial dysfunction, HCl-induced, endogenous opioids and, 643  
 myocardial excitation-contraction coupling, developing rabbit, 428  
 pacemaker development, embryonic rat, 637  
 ventricle, diastolic interaction, developmental changes, 466
- Heart rate**  
 apnea effect, piglet, 402  
 during hypoxia, transcutaneous monitoring, dog, 548
- Heme oxygenase, intestinal, effects of antibiotics and tin-protoporphyrin, 50**
- Hemoglobin, switching, rate estimation by measuring hemoglobin F, neonatal reticulocyte, 595**
- Hepatocyte, bile acid efflux from, suckling rat, 364**
- Hepatoma cells, human, influenza infected, protein synthesis by, 334**
- Heterozygote, detection, Pompe's disease, 283**
- Hypercapnia, effect on diaphragm electromyogram, piglet, 54**
- Hypercholesterolemia, familial, screening, neonates, 500**
- Hyperinsulinemia, euglycemic, effect on cerebral cortical glucose metabolism, neonatal dog, 474**
- Hypertension, chronic, role of taurine as cerebral osmoprotective molecule, kitten, 35**
- Hyperphenylalaninemia, mouse mutant, 63**
- Hypertension, pulmonary, thromboxane associated, Gram-positive bacteremia, piglet, 553**
- Hyperthyroidism, neonatal, hepatic epidermal growth factor receptor ontogeny and, mouse, 557**
- Hyperventilation, whole body oxygen consumption and, newborn piglet, 565**
- Hypoxanthine, as hypoxia indicator, role in health and disease, 143**
- Hypoxemia**  
 acute, effect of  $\beta$ -adrenergic receptor blockade, lamb, 229  
 chronic, comparison, chronic anemia, newborn lamb, 621  
 renal hemodynamic responses, relationships to circulating vasoactive substances, fetal and neonatal lamb, 155
- Hypoxia**  
 brain energy metabolism during, bilirubin effects, 569  
 effect on diaphragm electromyogram, piglet, 54  
 epinephrine release during, naloxone effect, fetal sheep, 343  
 fetal heart rate during, transcutaneous monitoring, dog, 548  
 hypoxanthine as indicator of, 143  
 isocapnic alveolar, pulmonary vascular response, lamb, 513
- Ileum, terminal, bile acid uptake from, cystic fibrosis, 323**
- Immunoglobulin, binding, senescent neonatal erythrocytes, 288**
- Indomethacin, age-dependent effects on hypoxic vasoconstriction, neonatal lamb lung, 580**
- Infant**  
*see also Neonate*  
 bacterial enteritis, malnutrition effects on intestinal repair after, rabbit, 408  
 bronchopulmonary dysplasia, control of water balance, 86  
 capillary blood cell velocity, videophotometric microscopic determination, infants, 585  
 group B Streptococcus, type III, antibody activity, 31  
 intestinal enzyme development, miniature pig, 311  
 low birth weight, vitamin E effect on superoxide production, 245  
 lung lavage cell phenotype, sudden infant death syndrome, 187

- maturation of caffeine N-demethylation, 632
- premature
- digitalis receptor in erythrocytes from, 414
  - high-density lipoprotein subclass distribution, before and after enteral feeding, 543
  - spectral analysis of cardiovascular instability, 398
- recurrent otitis media, risk factors, 509
- very low birth weight
- antibody development, 14
  - lymphocyte proliferative response subpopulations in, 457
- Influenza B, human hepatoma cells infected with, protein synthesis, 334
- Insulin
- concentration, effect on glucose utilization, fetal lamb, 381
  - effect on amylase activity, fetal pancreas, 539
- Insulin-like growth factor-1, biosynthetic, effects on somatic growth, maturation, and erythropoiesis, neonatal rat, 298
- Intestine
- endoplasmic reticulum, phosphate transport by, during maturation, 612
  - microvillus membrane phospholipids in, newborn and adult rat, 439
- Iron, nonheme, isotope determination, 495
- Ischemia, partial, cerebral blood flow alterations, piglet, 206
- Jaundice, acute brainstem auditory evoked potential abnormalities in, Gunn rat given sulfonamide, 306
- Jejunum, mucosa, glucocorticoid effect, during viral enteritis, piglet, 279
- Kidney
- hemodynamic response to hypoxemia, fetal and neonatal lamb, 155
  - vascular bed, epinephrine effects, fetal, newborn, and adult sheep, 181
- Lactate
- blood concentrations, effect of fasting, rat, 241
  - in portal venous and arterial circulations, after nursing, newborn lamb, 598
  - portal venous and aortic changes, chronically catheterized rat, 235
- Latin American Society for Pediatric Research, abstracts, 647
- Lead, distribution in milk and intestinal contents, suckling rat, 58
- Lipoprotein, high-density, subclass distribution, before and after enteral feeding, premature neonate, 543
- Liver
- dysfunction, aluminum-associated, rat, 275
  - epidermal growth factor receptor ontogeny, neonatal hyperthyroidism and, mouse, 557
  - gluconeogenesis, premature appearance, postterm rabbit fetus, 224
  - immature, effect of protein-calorie malnutrition, 505
  - metabolism, glucose-6-phosphatase deficiency, 375
  - taurine transport, suckling rat, 172
- Lung
- alveolar subphase, changes at birth, term and premature lambs, 418
  - fetal, substrate utilization, last trimester, lamb, 606
  - hypoxic vasoconstriction, age-dependent indomethacin effects, 580
  - lavage, cell phenotype, sudden infant death syndrome, 187
  - postnatal growth, unilateral diaphragmatic paralysis and, piglet, 463
  - pulmonary oxygen toxicity, vitamin A deficiency and, mouse, 76
  - response to aerosolized cromolyn sodium and isocapnic alveolar hypoxia, lamb, 513
- Luteinizing hormone, human chorionic gonadotropin and, dynamics, first 7 days of life, 530
- Lymphocyte
- proliferative response subpopulations, analysis, very low birth weight infants, 457
  - regulation by human placental cells, 212
  - transformation, effect of aspirin-like drug ingestion during pregnancy, rat, 93
  - zinc-stimulated, heterozygote detection, Pompe's disease, 283
- Macrophage
- alveolar
    - function, neonatal and juvenile rhesus monkey, 293
    - status, bronchopulmonary dysplasia, 470
    - human milk, motility, collagen gels, 449
- Magnetic resonance spectroscopy, liver metabolism studied by, glucose-6-phosphatase deficiency, 375
- Malnutrition
- maternal, protein turnover in fetal tissues after, rat, 534
  - protein-calorie
    - effect on developing liver, 505
    - small intestinal repair affected by, infant rabbit, 408
- Metabolism
- cerebral, newborn lamb with polycythemia, 329
  - gestational changes, pregnant guinea pig uterus, 45
- Microscopy, videophotometric, capillary blood cell velocity determined by, infants, 585
- Milk
- human, macrophage motility, in collagen gels, 449
  - lead content, suckling rat, 58
- Mineralocorticoids, plasma, premature infants, first week of life, 525
- Mitochondria, bilirubin uptake, role of free bilirubin acid salt, 443
- Myocardium
- dysfunction, HCl-induced, endogenous opioids and, 643
  - excitation-contraction coupling, developing rabbit, 428
- Naloxone, epinephrine release potentiated by, during hypoxia, fetal sheep, 343
- Neonate
- see also* Infant
  - acoustic sensory processing, reflex modification audiometry assessment, 357
  - acute hypoxemia, effect of  $\beta$ -adrenergic receptor blockade, lamb, 229
  - altered nutritional status, role of cardiac-sympathetic axis, rat, 423
  - atrioventricular nodal function, puppy, 99
  - biosynthetic insulin-like growth factor-1 effect, rat, 298
  - cerebral blood flow alterations, during and after partial ischemia, piglet, 206
  - chronic anemia, cardiovascular adaptations, lamb, 621
  - coagulation, fibrinogen turnover, lamb, 249
  - dynamics of bioactive luteinizing hormone-human chorionic gonadotropin, 530
  - epinephrine effect, renal vascular bed, lamb, 181
  - euglycemic hyperinsulinemia, glucose metabolism and, cerebral cortex, dog, 474
  - familial hypercholesterolemia screening, recall study, 500
  - group B streptococcal sepsis, late dazmegrel treatment, 352
  - hepatic taurine transport, rat, 172
  - hyperthyroidism, hepatic epidermal growth factor receptor ontogeny and, mouse, 557
  - hypoxemia, renal hemodynamic responses to, lamb, 155
  - hypoxic vasoconstriction, age-dependent indomethacin effects, lamb lung, 580
  - intestinal microvillus membrane, fatty acid composition, rat, 439
  - lymphocyte transformation, effect of aspirin-like drug ingestion during pregnancy, rat, 93
  - ontogeny of pulmonary defenses, rhesus monkey, 293
  - oxygen consumption, hyperventilation and, piglet, 565
  - polycythemia, cerebral metabolism in, lamb, 329
  - portal venous and arterial circulations, galactose, glucose, and lactate concentrations, after nursing, lamb, 598
  - premature, high-density lipoprotein subclass distribution, before and after enteral feeding, 543
  - repeated upper airway obstruction, effect on arousal and cardiopulmonary response, lamb, 191
  - reticulocyte, hemoglobin switching rate estimation, 595
- Neuroblastoma, diagnosis, catecholamine metabolites, random urine samples, 576
- Neurotoxicity, bilirubin and synapsin I phosphorylation, rat cerebral cortex, 219
- Nicotinamide adenine dinucleotide, fatty acid oxidation controlled by, small intestine, suckling rat, 262
- Nitrogen, washout, changes in ventilation homogeneity and, 68
- Normoxia, brain energy metabolism during, bilirubin effects, 569
- Nutrition
- effect of protein-calorie malnutrition on developing liver, 505
  - enteral, high-density lipoprotein subclass distribution and, premature neonate, 543
  - infantile recurrent otitis media and, 509
  - neonatal, role of cardiac-sympathetic axis, rat, 423
  - nonheme iron, stable isotope determination, 495
  - parenteral, aluminum-associated hepatobiliary dysfunction, 275
- Opioid, endogenous, effect on HCl-induced myocardial dysfunction, 643

- Otitis media, infantile recurrent, risk factors, 509
- 2-Oxo acids, branched chain, metabolism, human skin fibroblasts, 40
- Oxygen  
consumption, hyperventilation and, newborn piglet, 565  
pulmonary, toxicity, vitamin A deficiency and, mouse lung, 76  
saturation, apnea effect, piglet, 402  
tension, inner retinal surface, rabbit, 5
- Pacemaker, development, embryonic rat heart, 637
- Pancreas  
exocrine  
function, effect on choramphenicol pharmacokinetics, cystic fibrosis, 388  
reserpine effect on dietary adaptation, rat, 176  
fetal, amylase activity, effect of cholecystokinin-octapeptide, insulin, glucagon, triiodothyronine, and epidermal growth factor, 539
- Paralysis, diaphragmatic, postnatal lung growth and, piglet, 463
- Parents, diabetic, thiamin status of offspring, 574
- Patent ductus arteriosus, role of  $\beta$ -adrenoreceptor stimulation and contractile state, preterm lamb, 316
- Phosphate, transport, by intestinal endoplasmic reticulum, during maturation, 612
- Phosphocysteamine, effectiveness in nephropathic cystinosis, compared with cysteamine, 616
- Phospholipid, microvillus membrane, small intestine, newborn and adult rat, 439
- Pituitary dwarfism, somatomedin values in urine, 151
- Placenta  
calcium-sensitive amino acid uptake, 9  
glucose utilization, fed and fasted pregnant rabbits, 480  
immunologic function, 212
- Plethysmography, impedance, tidal volume measured by, 253
- Polycythemia, neonatal, cerebral metabolism, lamb, 329
- Polymorphonuclear leukocyte, superoxide anion production, vitamin E effect, 245
- Pompe's disease, heterozygote detection, enzyme assay method, 283
- Postmaturity, liver metabolism and, rabbit fetus, 224
- Pregnancy  
aspirin-like drug ingestion during, effect on lymphocyte transformation, rat, 93  
glucose utilization, fed and fasted pregnant rabbits, 480  
uterine metabolism, function of gestational age, guinea pig, 45
- Prematurity  
*see also* Infant, premature  
calcium absorption, measured by intravenous  $^{46}\text{Ca}$  and oral  $^{44}\text{Ca}$ , 589  
patent ductus arteriosus, role of  $\beta$ -adrenoreceptor stimulation and contractile state, lamb, 316  
plasma mineralocorticoids, glucocorticoids, and progestins, first week of life, 525  
pulmonary surfactant effect on lung compliance, rabbit fetus, 23  
specific and functional antibody, longitudinal development, 14
- Procollagen type III, in human growth hormone treatment, long-term monitoring, 167
- Progesterin, plasma, premature infants, first week of life, 525
- Propranolol, effects during hypoxemia, newborn lamb, 229
- Protein  
synthesis, human hepatoma cells infected with influenza B virus, 334  
turnover, fetal tissue, after maternal malnutrition, rat, 534
- Pulmonary surfactant  
dipalmitoyl phosphatidylcholine and, in vitro and in vivo effects, 484  
effect on lung compliance, premature rabbit fetus, 23
- Pyruvate, metabolism, disorders detected with dichloroacetate culture of skin fibroblasts, 561
- Race, blood pressure and, ethnic variation, preadolescent children, 270
- Reserpine, effect on dietary adaptation, rat exocrine pancreas, 176
- Respiration, thyrotropin-releasing hormone effect, fetal sheep, 72
- Reticulocyte, neonatal, hemoglobin switching rate estimation, 595
- Reticulum, intestinal endoplasmic, phosphate transport by, during maturation, 612
- Retina, physiological effects of light and oxygen, retinopathy of prematurity, rabbit, 5
- Reye's syndrome  
pathogenesis  
role of influenza B, 334  
role of salicylic acid, 338
- Salicylic acid, effect on fatty acid catabolism, 338
- Screening, familial hypercholesterolemia, neonates, 500
- Sepsis, streptococcal group B, late dazmegrel treatment, neonate, 352
- Serotonin, turnover, effects of sodium benzoate and sodium phenylacetate, child with citrullinemia and animal model, 368
- Skin  
capillary blood cell velocity, videophotometric microscopic determination, infants, 585  
fibroblast, dichloroacetate detection of pyruvate metabolism disorders by culture of, 561  
human fibroblasts, metabolism of branched chain 2-oxo acids, 40
- Sleep apnea, obstructive, diaphragmatic and genioglossus electromyographic activity, 1
- Small intestine  
fatty acid oxidation, control by [NADH/NAD $^{+}$ ], suckling rat, 262  
repair, after bacterial enteritis, malnutrition effect, infant rabbit, 408
- Sodium benzoate, effect on brain serotonin turnover, child with citrullinemia and animal model, 368
- Sodium phenylacetate, effect on brain serotonin turnover, child with citrullinemia and animal model, 368
- Somatomedin, biosynthetic, effects on somatic growth, maturation, and erythropoiesis, neonatal rat, 298
- Somatomedin C, immunoreactive, urine, normal subjects, pituitary dwarfs, acromegalics, 151
- Spectral analysis, blood pressure and cerebral blood flow velocity measured by, premature infants, 398
- Spectroscopy, nuclear magnetic, effects of bilirubin on brain energy metabolism, 569
- Streptococcus  
group B  
hemodynamic response, conscious piglet, 81  
sepsis, late dazmegrel treatment, neonate, 352  
group B, type III, class-specific antibody activity, infants, 31
- Substrate, utilization, last trimester, fetal sheep lung, 606
- Sudden infant death syndrome, lung lavage cell phenotype in, 187
- Superoxide, production, decreased by vitamin E, 245
- Synapsin I, phosphorylation, bilirubin effect, rat cerebral cortex, 219
- Taurine  
hepatic transport, suckling rat, 172  
role as cerebral osmoprotective molecule, chronic hypernatremia, kitten, 35
- Taurocholate, efflux, from suckling rat hepatocytes, 364
- Thermoreceptor, cutaneous, airway activity and surface cooling, fetal lamb, 257
- Thiamin, in offspring of diabetic rats, 574
- Thromboxane, pulmonary hypertension associated with, during Gram-positive bacteremia, piglet, 553
- Thyroglobulin, secretion control, ectopic thyroid gland patients, 266
- Thyrotropin-releasing hormone, respiratory and electocortical effects, fetal sheep, 72
- Thyroxine, conversion to 3,3',5'-triiodothyronine, fetal rat tissue, 196
- Tidal volume, measurement, during high frequency ventilation, 253
- Tin-protoporphyrin  
effect on bilirubin conjugation and production, cholestatic rat, 163  
effect on intestinal heme oxygenase, rat, 50
- Triiodothyronine, effect on amylase activity, fetal pancreas, 539
- Tryptophan, turnover, effect of sodium benzoate, and sodium phenylacetate, child with citrullinemia and animal model, 368
- Upper airway, repeated obstruction, arousal and cardiopulmonary response, lamb, 191
- Urine  
growth hormone excretion, children with normal and abnormal growth, 89  
immunoreactive somatomedin C in, normal subjects, pituitary dwarfs, acromegalics, 151  
neuroblastoma diagnosis, catecholamine metabolites and, 576
- Uterus, metabolism, function of gestational age, pregnant guinea pig, 45
- Vasoconstriction, hypoxic, age-dependent effects of indomethacin, neonatal lamb lung, 580
- Vasopressin, endogenous, role in broncho-

- pulmonary dysplasia, infants, 86
- Ventilation
  - effect on immature airways, 519
  - high frequency, tidal volume measurement during, 253
  - high-frequency oscillatory, hemodynamics
    - impaired during, 628
    - homogeneity changes, growth effect, 68
- Ventriculotomy, right, effects on local propagation, puppy, 433
- Vitamin A, deficiency, pulmonary oxygen toxicity and, mouse lung, 76
- Vitamin E, superoxide production decreased by, 245
- Water balance, control, vasopressin role, infants with bronchopulmonary dysplasia, 86
