

## Subject Index to Volume 25

- Acetaldehyde, disposition, during late pregnancy, rat, 102
- Acetylcholine, cerebral vascular responses, ischemia effect, piglet, 180
- Acidemia, propionate, long-chain fatty acids in, 147
- Acidosis  
  lactic, fatal, with complex III defect, neonate, 553  
  metabolic, acyl-coenzyme A dehydrogenase deficiency, mice, 38
- Aciduria  
  dicarboxylic, acyl-coenzyme A dehydrogenase deficiency, mice, 38  
  methylmalonic, long-chain fatty acids in, 147
- Acyl-coenzyme A dehydrogenase, short-chain, deficiency, mice, 38
- Adenosine monophosphate, cyclic, formation, children with pertussis, 209
- Adenosine triphosphate  
  depletion, after oxidant injury, endothelial cell, 97  
  effect of oxygen exposure, bronchoalveolar fluid, rat, 396
- Adolescent, growth status, zinc and copper deficiency and, 323
- $\beta$ -Adrenergic activity, myocardial oxygen consumption and, during hypoxemia, neonatal lamb, 585
- $\alpha$ -Adrenoceptor, postjunctional responses, regional variation, sheep, 461
- Age, serum mucins and, cystic fibrosis, 49
- Airway, immature, *in vivo* mechanical properties, preterm lamb, 143
- Albumin, vascular to alveolar leak, ventilated lung, immature rabbit, 130
- Aldosterone, neonatal fluid homeostasis, 591
- Alkalosis, effect on hypoxia-induced pulmonary vasoconstriction, neonatal rabbit, 383
- Amino acid  
  branched chain  
    maple syrup urine disease, 11  
    maternal phenylketonuria treated with, rat, 568
- Ammonium chloride, palmitic acid oxidation and, rat liver, 119
- Amniotic fluid, dilution studies, perinatal baboon, 377
- Androgen, renin processing and, submandibular gland, mouse, 332
- Anemia, neonatal, prevention method, rabbit, 274
- Anticoagulation, heparin and, neonatal plasma, 405
- Antigen, mucin-associated levels, cystic fibrosis, 49
- Antioxidant, developmental biology, piglet intestine, 612
- Apolipoprotein, plasma, gastric drip feeding and, glycogen storage disease, 327
- Arousal response, carotid-denervation and, developing hypoxemia, lamb, 473
- Artery  
  intrapulmonary, response to vasoactive compounds, lamb, 360  
  wall properties, noninvasive assessment, 94
- Ataxia, B<sub>1</sub> variant of G<sub>M2</sub> gangliosidosis, 89
- Atrial natriuretic factor  
  physiology, fetus and newborn, rat, 339  
  renal hemodynamic response, fetal and newborn sheep, 291
- Atrial natriuretic peptide, neonatal fluid homeostasis, 591
- Bacteria, opsonization, immune globulin intravenous effect, premature serum, 634
- Bilirubin  
  <sup>125</sup>I-albumin-bound, blood brain barrier permeability for, neonatal piglet, 452  
  intestinal absorption, saccharolactone effect, in presence of human breast milk, rat, 234  
  toxicity  
    delayed effects, neuroblastoma cell line, 369  
    neuroblastoma cell line, 364
- Birth weight, insulin-like growth factor-I and thyroxine relationship, 336
- Blood, rheologic properties, comparison, adult and neonate, 457
- Blood brain barrier, permeability, neonatal piglet, 452
- Blood flow: *see also* Circulation  
  hepatic, changes at birth, sheep, 300  
  myocardial, hypoxemia effect, during exercise, dog, 280  
  ocular and cerebral, effect of arterial PCO<sub>2</sub> variations, piglet, 205
- Blood pressure, pulmonary, patent ductus arteriosus, neonatal lamb, 136
- Blood sampling  
  dilution studies, perinatal baboon, 377  
  neonatal anemia and, rabbit, 274
- Blood viscosity, reduction, Fahraeus-Lindqvist effect, 595
- Body water, estimation, dilution kinetics of markers, perinatal baboon, 377
- Brain  
  hypoxic-ischemic injury  
    flunarizine pretreatment, infant rat, 573  
    measurement, phosphorus magnetic resonance spectroscopy, neonate, 445
- Breastfeeding  
  fatty acid synthesis during, high carbohydrate diet effect, 63  
  saccharolactone effect on bilirubin absorption, rat intestine, 234  
  vitamin D metabolism, infants and mothers, 623
- Breathing cycle, periodic, duration, preterm infants, 258
- Bronchoalveolar fluid, adenosine triphosphate content, oxygen exposure and, rat, 396
- Bronchopulmonary dysplasia  
  dexamethasone effect, infant mice, 353  
  preterm rat model, 525
- Calcium  
  absorption, fortified human milk, very low birth weight infants, 496  
  cardiopulmonary effects, persistent pulmonary hypertension, neonate, 262  
  mitochondrial transport, rat intestine, 107  
  placental clearance, growth-retarded rat fetus, 420
- Calcium channel, development, gastric smooth muscle, rabbit, 600
- Carbohydrate, hepatic metabolism, after umbilical cord compression, fetal lamb, 228
- Carbon dioxide, pressure, arterial variations, effect on blood flow, neonatal piglet, 205
- Carnitine, palmitic acid oxidation and, rat liver, 119
- Carotid, denervation, effect on arousal response to hypoxemia, lamb, 473
- Cartilage column, formation, costochondral junction, neonates and children, 202
- Chemoreceptor, peripheral tone, during hypoxic exercise, 285
- Chloralose, basal hemodynamics after, neonatal lamb, 389
- Chloride-bicarbonate, exchange, maturation, rat ileum, 189
- Cholera toxin, adenylate cyclase response, suckling rat, 225
- Chondrocyte, somatomedin-C and growth hormone effect, bovine growth plate, 76
- Circulation, nitroprusside effect, aortopulmonary shunt, lamb, 44
- Colostrum  
  antioxidant heterogeneity, further characterization, 266  
  lymphocytes, immunoglobulin production by, 295
- Complex I, deficiency, mitochondrial encephalomyopathy, 194
- Complex III, fatal defect of, neonatal lactic acidosis, 553
- Convulsions, B<sub>1</sub> variant of G<sub>M2</sub> gangliosidosis, 89
- Copper  
  deficiency, growth status and, 323  
  toxicity, vitamin E effect, rat hepatocyte, 55
- Corticosteroids, gestational effects, ventilated rabbit, 32
- Costochondral junction, column formation in, neonates and children, 202
- Cystic fibrosis  
  pancreatic growth and GP-2 content, reserpinized rat model, 478  
  reserpine treatment effect on pancreas morphology, rat model, 482  
  serum mucin levels, age and clinical status related to, 49
- Dexamethasone  
  effect on chronic pulmonary oxygen toxicity, infant mice, 353  
  effect on vitamin K-dependent carboxylation, fetal rat lung, 530
- Diabetes, maternal, lung maturation in macrosomic offspring, mouse, 173
- Diaphragm, contractility, digoxin effect, piglet, 271
- Diarrhea  
  neonatal, role of adenylate cyclase, rat, 225

- secretory, *Klebsiella pneumoniae* heat-stable enterotoxin, 514
- Diazepam, neonatal seizures treated by, nuclear magnetic resonance spectroscopy, dog, 27
- Diet: *see also* Nutrition  
protein turnover and, human milk and formula-fed infants, 167
- Digoxin, diaphragmatic contractility and, piglet, 271
- Doppler system, multigate pulsed, artery wall assessment, 94
- Ductus arteriosus  
closure, after surfactant replacement therapy, preterm infants, 305  
prenatal ligation  
pulmonary hypertension and, neonatal lamb, 239  
pulmonary vasculature remodeled by, lamb, 251
- Endorphin, acetylated and shortened, fetal pituitary gland, 652
- Endothelium, adenosine triphosphate depletion, after oxidant injury, 97
- Energy, substrate utilization, during total parenteral nutrition, infants, 645
- Enteroinular axis, full-term neonates, 490
- Enterotoxin, heat-stable, *Klebsiella pneumoniae* diarrhea, 514
- Enzyme  
galactose-metabolizing, hepatic, pregnant rat and fetus, 161  
oxidant-producing, developmental biology, piglet intestine, 612
- Epidermal growth factor  
binding, intrauterine growth retardation, rat, 214  
receptor/kinase, ontogeny, ovine lung, 535
- Epidermis, structural proteins in, perinatal rat, 542
- Epinephrine, pulmonary artery response to, fetal and neonatal lamb, 360
- Erythrocyte, insulin-like growth factor I binding to, normal prepubertal children, 409
- Erythropoietin, recombinant radiolabeled, placental permeability, sheep, 649
- Ethanol, disposition, during late pregnancy, rat, 102
- Euglycemic hyperinsulinemic clamp, developmental response, neonatal dog, 219
- Exercise  
myocardial blood flow during, hypoxemia effect, dog, 280  
ventilatory control during, hypoxia effect, 285
- Fahraeus-Lindqvist effect, blood viscosity reduction by, neonates and adults, 595
- Fasting, catch-up growth after, glucocorticoid-treated rats, 373
- Fat, utilization, during total parenteral nutrition, infants, 645
- Fatty acid  
long-chain, disorders of propionate metabolism, 147  
metabolism, biology of, mice, 38  
n-3 polyunsaturated, oxygen toxicity and, neonatal rat, 399  
synthesis, high carbohydrate diet effect, 63
- Fc receptor, heterogeneity, neonatal neutrophils, 6
- Feeding, gastric drip, glycogen storage disease type I, 327
- Fetus  
atrial natriuretic factor infusion  
renal hemodynamic response, sheep, 291  
right and left atria, rat, 339  
corticosteroid and surfactant treatment, ventilated rabbit, 32  
ductus arteriosus  
indomethacin and betamethasone combined effect, rat, 69  
ligation, neonatal pulmonary hypertension and, lamb, 239  
ethanol and acetaldehyde effect, rat, 102  
galactose metabolism, hepatic, rat, 161  
gonadotropin and testosterone release, effect of luteinizing hormone-releasing factor agonist, sheep, 347  
growth-retarded, placental calcium clearance, rat, 420  
hyperphenylalaninemia-exposed, effect of large neutral amino acids, rat, 568  
intrauterine growth retardation, epidermal growth factor binding, rat, 214  
liver metabolism, after umbilical cord compression, 228  
lung  
maturation, maternal diabetes and, mouse, 173  
ontogeny of epidermal growth factor receptor/kinase, 535  
vitamin K-dependent carboxylase activity, rat, 530  
lung surfactant phospholipid synthesis, glucocorticoid role, rat lung, 239  
metabolism, maternal sodium  $\beta$ -hydroxybutyrate infusion and, baboon, 435  
pituitary gland, acetylated and shortened endorphins in, 652  
placental permeability,  $^{35}\text{S}$  recombinant erythropoietin injection, sheep, 649  
regulation of placental glucose, sheep, 429  
response to vasoactive compounds, intrapulmonary arteries, lamb, 360
- Fluid homeostasis, effects of aldosterone and atrial natriuretic peptide, neonate, 591
- Flunarizine, prophylactic treatment, hypoxic-ischemic encephalopathy, rat, 573
- Forskolin, myocardial inotropic effects, comparison, isoproterenol, lamb, 580
- Galactose, metabolism, ovarian tissue, 151
- Gangliosidosis,  $\text{GM}_2$ ,  $\text{B}_1$  variant, 89
- Gastric inhibitory polypeptide, insulin response to glucose infusion and, full-term neonates, 490
- Gestation: *see also* Pregnancy  
corticosteroid treatment and, ventilated rabbit, 32  
surfactant treatment and, ventilated rabbit, 32
- Glucocorticoid, growth stunting after, catch-up growth after fasting, rat, 373
- Glucose  
homeostasis, hepatic, after umbilical cord compression, fetal lamb, 228  
placental transfer, fetal regulation, sheep, 429  
uterine uptake, late pregnancy, guinea pig, 641  
utilization, during total parenteral nutrition, infants, 645
- Glucose-6-phosphatase, deficiency, gastric drip feeding and, 327
- Glycogen storage disease, type I, gastric drip feedings and, 327
- Gonadotropin, fetal and neonatal secretion, effect of luteinizing hormone-releasing factor agonist, sheep, 347
- GP-2, reserpine treatment effect, cystic fibrosis, rat model, 478
- Growth and development  
after cranial irradiation, 561  
catch-up growth after fasting, growth-stunted rats, 373  
dietary protein restriction and, rat, 509  
energy requirements during catch-up growth, prediction model, 503  
epidermal growth factor binding, intrauterine growth retardation, rat, 214  
ethanol and acetaldehyde effect, fetal rat, 102  
human milk protein intake, very low birth weight infants, 414  
immature airway, *in vivo* mechanical properties, lamb, 143  
insulin-like growth factor I binding erythrocytes, normal prepubertal children, 409  
normal and low birth weight infants, 336  
intestinal maturation  
mitochondrial calcium transport, rat, 107  
mitochondrial phosphate transport, rat, 605  
intrauterine growth retardation  
adrenocortical function, term infants, 115  
sympathoadrenal response to hypoxia after, neonatal rat, 466  
lung function and, estimation, spatial relationship, 316  
lung maturation, maternal diabetes and, fetal mouse, 173  
placental calcium clearance, growth-retarded rat fetus, 420  
prenatal terbutaline exposure and, lung and liver cells, neonatal rat, 617  
renal  $\alpha$ -vasoconstriction, regional variation, sheep, 461  
role of somatomedin-C and growth hormone, bovine growth plate chondrocyte, 76  
zinc and copper deficiency, children and adolescents, 323
- Growth hormone  
deficiency, after cranial irradiation, 561  
role in skeletal development, bovine growth plate chondrocyte, 76
- Growth retardation, intrauterine, sympathoadrenal response to hypoxia after, neonatal rat, 466
- Heart, atrial natriuretic factor activity, perinatal period, rat, 339
- Hemorheology, neonatal, comparison, adult blood, 457
- Heparin, anticoagulant effect, neonatal plasma, 405
- Hepatocyte, copper toxicity and lipid peroxidation, vitamin E effect, rat, 55
- Histidine, transport, placental microvillous membrane vesicles, 19
- Hypercapnia, cerebral vascular responses, ischemia effect, piglet, 180
- Hyperinsulinemia, euglycemic, hepatic and muscle metabolism and, neonatal dog, 124
- Hyperphenylalaninemia, *in utero*, effect of branched chain amino acids, rat, 568
- Hypertension  
pulmonary  
after prenatal ductus arteriosus ligation, lamb, 239  
calcium infusion, cardiopulmonary effects, neonate, 262

- Hyperventilation, effect on surfactant metabolism, neonatal lamb, 83
- Hypocalcemia, pulmonary hypertension and, calcium infusion effects, neonate, 262
- Hypoglycemia  
maternal, fetal glucose production during, sheep, 429  
nonketotic, acyl-coenzyme A dehydrogenase deficiency, mice, 38
- Hypoxemia  
arousal response, carotid-denervation and, lamb, 473  
effect on myocardial blood flow, during exercise, dog, 280  
myocardial oxygen consumption during,  $\beta$ -adrenergic influence, neonatal lamb, 585
- Hypoxia  
alveolar, cardiovascular response, chloralose anesthesia, neonatal lamb, 389  
effect on ventilatory control, during exercise, 285  
pulmonary vasoconstriction induced by, alkalosis effect, neonatal rabbit, 383  
sympathoadrenal response, after intrauterine growth retardation, rat, 466
- Hypoxia-ischemia, flunarizine pretreatment, infant rat, 573
- Ileum, chloride-bicarbonate exchange, maturation, rat, 189
- Immune factors, urinary, human milk effect, low birth weight infants, 184
- Immune globulin intravenous, effect on bacterial opsonization, premature serum, 634
- Immunoglobulin, production, human colostrum lymphocytes, 295
- Indomethacin, betamethasone and, combined effect, ductus arteriosus, fetal rat, 69
- Infant: *see also* Neonate  
breast-fed, vitamin D metabolism, 623  
diarrhea, *Klebsiella pneumoniae*, heat-stable enterotoxin produced by, 514  
energy substrate utilization, during total parenteral nutrition, infants, 645  
hypoxic-ischemic encephalopathy, flunarizine pretreatment, rat, 573  
low birth weight  
insulin-like growth factor-I and thyroxine relationship, 336  
protein turnover, 167  
urinary immune factors, human milk effect, 184  
premature, periodic breathing cycle duration, 258  
pulmonary oxygen toxicity, dexamethasone effect, mouse, 353  
small-for-gestational-age term, adrenocortical steroids in, 115  
very low birth weight  
calcium and magnesium absorption from fortified human milk, 496  
growth effect, human milk protein, 414
- Insulin, resistance, assessment, neonatal dog, 219
- Insulin-like growth factor I  
binding, erythrocytes, normal prepubertal children, 409  
role in skeletal development, bovine growth plate chondrocyte, 76  
thyroxine and, low birth weight infants, 336
- Interferon, role, *Listeria monocytogenes* infection, neonatal rat, 311
- Interleukin-1, gestational age effect, cord blood monocytes, 342
- Intestine  
maturation, mitochondrial calcium transport, rat, 107  
mitochondria phosphate transport, rat, 605  
oxidant-producing enzymes and antioxidants in, developmental biology, piglet, 612
- Iron, -sulfur clusters, deficiency, mitochondrial encephalomyopathy, 194
- Iron dextran, vascular to alveolar leak, ventilated lung, immature rabbit, 130
- Irradiation, cranial, growth and endocrine disorders after, 561
- Ischemia, cerebral, effect on hypercapnia and acetylcholine response, piglet, 180
- L-Isoleucine, metabolism, L-allo isoleucine and, maple syrup urine disease, 11
- Isoproterenol, myocardial inotropic effects, comparison, forskolin, lamb, 580
- Ketosis, fetal metabolism and, effect of maternal sodium  $\beta$ -hydroxybutyrate infusion, baboon, 435
- Kidney  
failure, chronic, dietary protein restriction, rat, 509  
function, dietary protein restriction and, rat, 509  
hemodynamic response to atrial natriuretic factor, fetal and newborn sheep, 291  
 $\alpha$ -vasoconstriction, regional variation, sheep, 461
- Killer cell, lymphokine-activated, cytotoxicity, neonatal mononuclear cells, 156
- Klebsiella pneumoniae*, heat-stable enterotoxin produced by, secretory diarrhea, 514
- Lactation, fatty acid synthesis during, high carbohydrate diet effect, 63
- Learning, verbal and spatial processing, sex chromosome abnormalities and, 577
- Leukocyte  
fungicidal activity, vitamin D resistance and, 276  
polymorphonuclear  
colostral antioxidant heterogeneity and, 266  
nonmotile, characterization, neonates and adults, 519
- Lipid  
peroxidation, vitamin E effect, rat hepatocyte, 55  
plasma, gastric drip feeding and, glycogen storage disease, 327
- Lipocortin-1, ontogeny, fetal lamb lung, 535
- Lipopolysaccharide, role, *Listeria monocytogenes* infection, neonatal rat, 311
- Lipoprotein, effect on membrane fluidity, Duchenne muscular dystrophy, 656
- Listeria monocytogenes*, lipopolysaccharide and interferon role, neonatal rat, 311
- Listeriosis, neonatal, role of lipopolysaccharides and interferons, 311
- Liver  
blood flow, changes at birth, sheep, 300  
cellular development, prenatal terbutaline effect, neonatal rat, 617  
galactose-metabolizing enzymes, pregnant rat and fetus, 161  
glucose homeostasis, after umbilical cord compression, fetal lamb, 228  
L-pipecolic acid oxidation, Zellweger syndrome, 548
- metabolism, euglycemic hyperinsulinemia effect, neonatal dog, 124  
oxygen consumption, changes at birth, sheep, 300  
palmitic acid oxidation, ammonium chloride, salicylate, and carnitine effects, rat, 119
- Lung  
bronchoalveolar lavage, oxygen exposure effect, rat, 396  
cellular development, prenatal terbutaline effect, neonatal rat, 617  
disease, acute and chronic, preterm rat model, 525  
function, somatic growth and, spatial relationship estimation, 316  
intrapulmonary arteries, response to vasoactive compounds, lamb, 360  
iron dextran permeation, immature ventilated rabbit, 130  
maturation, maternal diabetes and, fetal mouse, 173  
mechanics, after surfactant replacement therapy, preterm infants, 305  
ontogeny of epidermal growth factor receptor/kinase, fetal lamb, 535  
oxygen toxicity, dexamethasone effect, infant mice, 353  
surfactant synthesis, glucocorticoid role, fetal rat, 239  
vascular pressure, patent ductus arteriosus, neonatal lamb, 136  
vasculature, after prenatal ductus arteriosus ligation, lamb, 251  
vasoconstriction, alkalosis effect, neonatal rabbit, 383  
vitamin K-dependent carboxylase activity, fetal rat, 530
- Luteinizing hormone-releasing factor, agonist, pituitary-gonadal function and, ovine fetus, 347
- Lymphocyte, human colostrum, immunoglobulin production by, 295
- Magnesium, absorption, fortified human milk, very low birth weight infants, 496
- Magnetic resonance spectroscopy  
phosphorus  
hypoxic-ischemic brain injury assessed by, 445  
metabolite concentration ratios, neonatal brain, 440
- Malnutrition, growth failure secondary to, prediction of energy requirements during catch-up growth, 503
- Maple syrup urine disease, L-isoleucine and L-allo-leucine metabolism, 11
- Medical education, training pediatric scientists, 1
- Membrane fluidity, lipoprotein effect, Duchenne muscular dystrophy, 656
- Menhaden oil, oxygen toxicity and, neonatal rat, 399
- Mental retardation, maternal phenylketonuria-acquired, effect of branched chain amino acids, rat, 568
- Methionine, uptake, bilirubin effect, neuroblastoma cell line, 364
- Milk  
human  
chemokinetic agents for monocytes in, 629  
fortified, calcium and magnesium absorption, very low birth weight infants, 496

- protein intake, very low birth weight infants, 414
- saccharolactone effect on bilirubin absorption and, rat, 234
- urinary immune factors and, low birth weight infants, 184
- vitamin D metabolism, infants and mothers, 623
- Milk lipid, composition, high carbohydrate diet effect, 63
- Mitochondria
- calcium transport, intestinal maturation and, rat, 107
  - encephalomyopathy, complex I deficiency in, 194
  - function, bilirubin effect, neuroblastoma cell line, 364
  - phosphate transport, rat intestine, 605
- Monocytes
- chemokinetic agents for, human milk, 629
  - cord blood, tumor necrosis factor and interleukin-1 secretion, 342
- Mucin, serum levels, cystic fibrosis, 49
- Muscle
- contraction, intracellular calcium and, rabbit stomach, 600
  - metabolism, euglycemic hyperinsulinemia effect, neonatal dog, 124
- Muscular dystrophy, Duchenne, membrane fluidity, lipoprotein effect, 656
- Myocardium
- comparison, forskolin and isoproterenol effects, young lamb, 580
  - oxygen consumption,  $\beta$ -adrenergic influence, during hypoxemia, neonatal lamb, 585
- Necrotizing enterocolitis, role of reactive oxygen metabolites, piglet intestine, 612
- Neonate
- acute and chronic lung disease, preterm rat model, 525
  - anemia, prevention, method evaluation, rabbit, 274
  - atrial natriuretic factor infusion
    - renal hemodynamic response, sheep, 291
    - right and left atria, rat, 339
  - basal hemodynamics, effect of chloralose anesthesia, lamb, 389
  - blood, rheologic properties, 457
  - blood brain barrier, permeability for  $^{125}$ I-albumin-bound bilirubin, piglet, 452
  - blood flow, effect of arterial  $\text{PCO}_2$  variations, piglet, 205
  - blood viscosity, Fahraeus-Lindqvist effect, 595
  - brain, phosphorus metabolites and intracellular pH, 440
  - cartilage cell column development, costochondral junction, 202
  - fatal lactic acidosis, complex III defect, 553
  - fluid homeostasis, aldosterone and atrial natriuretic peptide effects, 591
  - full-term, functional enteroinsular axis in, 490
  - gonadotropin and testosterone release, effect of luteinizing hormone-releasing factor agonist, sheep, 347
  - hepatic and muscle metabolism, euglycemic hyperinsulinemia effect, dog, 124
  - hyperventilation, surfactant metabolism during, lamb, 83
  - hypoxemia,  $\beta$ -adrenergic influence on myocardial oxygen consumption, 585
  - hypoxia, sympathoadrenal response, rat, 466
  - hypoxic-ischemic brain injury, assessment, phosphorus magnetic resonance spectroscopy, 445
  - insulin resistance, assessment, dog, 219
  - Listeria monocytogenes* infection, lipopolysaccharide and interferon role, rat, 311
  - mononuclear cells, lymphokine-activated killer cytotoxicity in, 156
  - nonmotile neutrophil subpopulation, characterization, 519
  - oxygen toxicity, menhaden oil effect, rat, 399
  - patent ductus arteriosus, pulmonary blood pressure and, lamb, 136
  - plasma, anticoagulant effects of heparin, 405
  - polymorphonuclear neutrophil, heterogeneity, 6
  - pulmonary hypertension
    - after prenatal ductus arteriosus ligation, lamb, 239, 251
    - calcium infusion, cardiopulmonary effects, 262
  - pulmonary vasoconstriction, alkalosis effect, rabbit, 383
  - response to vasoactive compounds, intrapulmonary arteries, lamb, 360
  - seizure, diazepam effect, dog, 27
  - toxigenic diarrhea, cholera-toxin activated cyclase response, rat, 225
  - tumor necrosis factor and interleukin-1 secretion, cord blood monocytes, 342
- Neuroblastoma cell, bilirubin toxicity, 364
- delayed effects, 369
- Neutrophil, nonmotile subpopulations, characterization, neonates and adults, 519
- Nitrogen, tracer study, protein metabolism, preterm infants, 167
- Norepinephrine, pulmonary artery response to, fetal and neonatal lamb, 360
- Nutrition, human milk protein intake, very low birth weight infants, 414
- Nutritional support, energy substrate utilization during, total parenteral nutrition, infants, 645
- Ornithine decarboxylase, prenatal terbutaline exposure and, lung and liver cells, neonatal rat, 617
- Ovary, galactose metabolism, 151
- Oxidant, injury, endothelial cell adenosine triphosphate depletion after, 97
- Oxygen
- consumption, changes at birth, ovine liver, 300
  - effect on adenosine triphosphate content, bronchoalveolar fluid, rat, 396
  - exposure, premature rat model, 525
  - toxicity
    - dexamethasone effect, infant mice, 353
    - menhaden oil effect, neonatal rat, 399
- Palmitic acid, oxidation, ammonium chloride, salicylate, and carnitine effects, rat liver, 119
- Pancreas
- exocrine, reserpine treatment effect, cystic fibrosis, rat model, 482
  - reserpine treatment effect, rat, 478
- Parathyroid hormone, phosphate transport and, placenta, 15
- Parenteral nutrition, total, energy substrate utilization, infants, 645
- Patent ductus arteriosus
- closure, after surfactant replacement therapy, preterm infants, 305
  - indomethacin and betamethasone combined effect, fetal rat, 69
  - pulmonary blood pressure and, neonatal lamb, 136
- Pediatrics, research training, 1
- Pertussis, second messenger cAMP formation in children with, 209
- pH, intracellular, magnetic resonance spectroscopy measurement, neonatal brain, 440
- Phenotype, psychologic, sex chromosome abnormalities and, 577
- Phenylketonuria, maternal, treated with large neutral amino acids, rat, 568
- Phosphate
- mitochondrial transport, rat intestine, 605
  - placental transport, parathyroid hormone effect, 15
- Phospholipid, synthesis, glucocorticoid receptor blockade and, fetal rat lung, 239
- L-Pipecolic acid, oxidation, liver, Zellweger syndrome patients, 548
- Pituitary, endorphin presence, human fetus, 652
- Placenta
- calcium clearance, growth-retarded rat fetus, 420
  - microvillous membrane vesicles, histidine transport by, 19
  - permeability,  $^{35}\text{S}$  recombinant erythropoietin, sheep, 649
  - phosphate transport, parathyroid hormone effect, 15
- Polymorphonuclear neutrophil, chemotaxis and adherence, heterogeneity, neonate, 6
- Potassium, influx, bilirubin effect, neuroblastoma cell line, 364
- Potassium chloride, pulmonary artery response to, fetal and neonatal lamb, 360
- Pregnancy
- body water estimation, dilution studies, baboon, 377
  - galactose-metabolizing enzyme activity during, rat liver, 161
  - late
    - ethanol and acetaldehyde disposition, rat, 102
    - uterine glucose uptake, guinea pig, 641
  - maternal hypoglycemia, fetal glucose production during, sheep, 429
  - sodium  $\beta$ -hydroxybutyrate infusion during, placental transfer and fetal effects, baboon, 435
- Prekeratin, high molecular weight, characterization, perinatal rat epidermis, 542
- Prematurity
- bacterial opsonization, effect of immune globulin intravenous, 634
  - immature airway, *in vivo* mechanical properties, lamb, 143
  - patent ductus arteriosus, indomethacin and betamethasone combined effect, fetal rat, 69
  - retinopathy of, effect of arterial  $\text{PCO}_2$  variations, piglet, 205
  - surfactant replacement therapy, ductus arteriosus closure after, preterm infants, 305
  - surfactant treatment, recovery, lungs, rabbit, 423
- Propionate, metabolism disorder, long-chain fatty acids in, 147
- Protein

- dietary restriction, effect on growth and renal function, rat, 509  
 human milk, growth effect, very low birth weight infants, 414  
 structural, perinatal rat epidermis, 542  
 turnover, preterm infants, 167  
 Puberty, alterations, after cranial irradiation, 561  
 Pulmonary artery, vascular pressure, patent ductus arteriosus, neonatal lamb, 136  
  
 Renin, processing, androgen influence, submandibular gland, mouse, 332  
 Reserpine  
   effect on exocrine pancreas, cystic fibrosis, rat model, 482  
   pancreatic growth and, cystic fibrosis, rat model, 478  
 Respiration, periodic breathing cycle, duration, premature infants, 258  
 Respiratory chain, complex III defect, fatal lactic acidosis, neonate, 553  
 Respiratory distress syndrome, surfactant treatment, recovery, lungs, premature rabbit, 423  
  
 Saccharolactone, bilirubin absorption and, in presence of human breast milk, 234  
 Salicylate, palmitic acid oxidation and, rat liver, 119  
 Serotonin, pulmonary artery response to, fetal and neonatal lamb, 360  
 Sex chromosome, abnormality, verbal and spatial processing in children with, 577  
 Shunt  
   aortopulmonary, left to right, nitroprusside effect, lamb, 44  
   atrial, surfactant metabolism and, neonatal lamb, 83  
 Sodium  $\beta$ -hydroxybutyrate, maternal infusion, placental transfer and fetal effects, baboon, 435  
 Sodium nitroprusside, circulatory effects, aortopulmonary shunt, lamb, 44  
 Somatomedin-C, role in skeletal development, bovine growth plate chondrocyte, 76  
 Status epilepticus, diazepam treatment, nuclear magnetic resonance spectroscopy, dog, 27  
 Steroids, adrenocortical, small-for-gestational-age term infants, 115  
 Stomach, gastric smooth muscle, calcium channel development, rabbit, 600  
 Submandibular gland, renin processing, androgen influence, mouse, 332  
 Sudden infant death syndrome, periodic breathing cycle duration and, premature infants, 258  
 Surfactant  
   gestational effects, ventilated rabbit, 32  
   metabolism, during hyperventilation, neonatal lamb, 83  
   recovery, mechanically ventilated premature rabbit, 423  
   replacement therapy, ductus arteriosus closure after, premature infants, 305  
  
 Terbutaline, prenatal exposure, effect on cellular development, lung and liver, neonatal rat, 617  
 Testosterone, fetal and neonatal secretion, effect of luteinizing hormone-releasing factor agonist, sheep, 347  
 Thrombin, heparin effect, neonatal plasma, 405  
 Thymidine, uptake, bilirubin effect, neuroblastoma cell line, 364  
 Thyroxine, insulin-like growth factor-I and, low birth weight infants, 336  
 Triiodothyronine, effect on vitamin K-dependent carboxylation, fetal rat lung, 530  
  
 Tumor, cell lines, lymphokine-activated killer cytotoxicity against, 156  
 Tumor necrosis factor, gestational age effect, cord blood monocytes, 342  
 Tumor necrosis factor- $\alpha$ , role as chemokine agent, monocytes, human milk, 629  
  
 Ultrasonography, artery wall properties assessed by, 94  
 Umbilical cord, acute compression, liver metabolism after, fetal lamb, 228  
 Umbilical vein, oxidant injury, endothelial cell adenosine triphosphate depletion after, 97  
 Uterus, glucose uptake, late pregnancy, guinea pig, 641  
  
 Vasoconstriction, renal, postjunctional adrenoceptor responses, sheep, 461  
 Vitamin D  
   hereditary resistance, defective leukocyte fungicidal activity, 276  
   metabolism, breast-fed infants and their mothers, 623  
 1,25-(OH)<sub>2</sub>-Vitamin D<sub>3</sub>, mitochondrial phosphate transport regulated by, rat intestine, 605  
 Vitamin E  
   copper toxicity and, isolated hepatocyte, rat, 55  
   lipid peroxidation and, isolated hepatocyte, rat, 55  
  
 Water, doubly labeled, energy requirements predicted by, malnourished children, 503  
  
 Zellweger syndrome, L-pipecolic acid oxidation in, 548  
 Zinc, deficiency, growth status and, 323
