

Subject Index to Volume 34

- Abetalipoproteinemia, molecular genetics of, 403
- Academic pediatrician, development of, 397
- Acetate
colonic, in circulating acetate pool of infant pig, 318
influence on sodium transport, 666
- Acetylhydrolase, platelet-activating factor, role in prevention of necrotizing enterocolitis, 237
- Acidemias
D- and L-2-hydroxyglutaric, detection and prenatal diagnosis of, 277
hypoxic, effects on left ventricular end-systolic elastance in fetal sheep, 38
- Acquired immunodeficiency syndrome, immune complexes in, 781
- Acyl-CoA dehydrogenase, very-long-chain, deficiency of, identification of, 111
- Adenosine triphosphatase, sodium, potassium, in developing tubule, effect of dopamine on, 308
- Adenosine triphosphate, production in newborn hearts, source of, 735
- Adenylate cyclase, in developing tubule, effect of dopamine on, 308
- Adipose tissue, subcutaneous, estimation of, in infants, 448
- Adolescents, iron deficiency in, 680
- Adrenal hyperplasia, congenital, salt-wasting, β -hydroxysteroid dehydrogenase gene mutation in, 698
- α_1 B-Adrenoceptor, developmental regulation of, in kidney, 124
- Adrenocorticotropin secretion, inhibitory effect of glucocorticoids on, 646
- Adrenoreceptor, intrapulmonary maturation of, 591
- Albumin, regulation of lactate metabolism by, 709
- Alveoli, formation in rat lung, 334
- American Pediatric Society, Presidential Address, 393
- Amino acids, excitatory and inhibitory, effect of experimental *E. coli* meningitis on, 187
- 3-Aminobenzamide, effects on nucleotide depletion, 572
- Androgen receptor, influence on regulation of hepatitis B virus gene expression, 300
- Anemia of prematurity, erythropoietin treatment in, 675
- Antibodies
anti-HSP60, in juvenile chronic arthritis, 424
anti-TNF, and nitric oxide suppression, 345
to glutamic acid decarboxylase, in insulin-dependent diabetes mellitus, 785
treatment of respiratory syncytial virus infection with, 167
- α_1 -Antichymotrypsin, synthesis by trophoblast, 312
- Antioxidant enzymes
effects on nucleotide depletion, 572
fetal lung, effect of EGF on, during hyperoxia, 577
perinatal lung, differential gene expression in, in rat, 27
- α_1 -Antitrypsin, synthesis by trophoblast, 312
- Apnea
during recovery from hyperthermia, 518
relationship between bradycardia and hypoxemia and, in preterm infants, 144
- Apolipoprotein(a) phenotypes, in chronic renal disease, 772
- Apolipoprotein B, familial defective, molecular genetics of, 403
- Apolipoprotein CII deficiency, molecular genetics of, 403
- Appropriate for gestational age babies, placental transport in, 661
- Arterial blood pressure, mean, influence on cerebral blood flow velocity in preterm infants, 173
- Arterial partial pressure of oxygen, changes in, effect of prolonged hypoxemia on ventilatory response to, in lambs, 821
- Arthritis
juvenile chronic, anti-HSP60 antibodies in, 424
juvenile rheumatoid
immune complexes in, 781
 α_2 -MG complexes in, 204
- Asphyxia
fetal, flunarizine after, neuroprotective properties of, 379
in newborns, resuscitation with 21% or 100% O₂, 809
superoxide in, 366
- Assisted mechanical ventilation, with elastic unloading, 600
- Autoantigens, fibroblast-derived CD, 420
- Autonomic state, fetal, spectral analysis, 134
- Bactericidal activity, lung, and pulmonary hypertension, 32
- Barnes, Lewis A., Howland Award presentation to, 551
- Benzodiazepine receptors, peripheral-type, binding sites for, 777
- Bilirubin toxicity, brainstem, promotion and reversal by modulating PCO₂, in newborn primate, 6
- Blood-brain barrier, LPS-induced opening, in newborn pigs, 182
- Blood flow, cerebral
effects of low-dose dopamine infusion on, in preterm neonates, 742
post-ischemic CO₂ response, PEG-SOD and, 530
regional, after fetal asphyxia, flunarizine and, 379
velocity
developmental and physiologic changes in, 385
influence of MABP, PCO₂, and PO₂ on, in preterm infants, 173
- Blood pressure
mean arterial, influence on cerebral blood flow velocity in preterm infants, 173
systemic, flunarizine and, after fetal asphyxia, 379
- Body fat, in infants, 448
- Bowel injury, PAF-induced
ischemic necrosis, 237
nitric oxide in, 222
- Bradycardia, in preterm infants, 144
- Brain: *see also* Cerebral
newborn, indomethacin and, 178
sulfonyleurea receptors in, effect of hypoxia on, in rat, 634
superoxide anion generation, in asphyxia, 366
- Brain cells
effect of caffeine on, in newborn rat, 716
lactate metabolism in, 709
- Brain injury
HIV peptide potentiation of, 192
hypoxic-ischemic
hypothermia and, 525
monosialoganglioside GM1 and, 18
oxygen radical scavengers with magnesium and, 23
- Brainstem auditory evoked potentials, reversible, in jaundiced Gunn rats, 629
- Brainstem bilirubin toxicity, promotion and reversal by modulating PCO₂, in newborn primate, 6
- Breastmilk, garlic-flavored, repeated exposure to, effects on nursing's behavior, 805
- Breathing: *see* Fetal breathing
- Bronchial reactivity, 478
- Bronchopulmonary dysplasia, pulmonary macrophages in, 341
- γ -Butyrobetaine, plasma concentrations and urinary output in drug-induced carnitine depletion, 460
- Caffeine, effect on newborn rat brain cultures, 716
- Calcium kinetics, pubertal changes, 455
- Caloric supplementation, effect on milk factors in undernourished Guatemalan mothers, 217
- Carbachol challenge test, interruption technique, 478
- Carbon dioxide
partial pressure
influence on cerebral blood flow velocity in preterm infants, 173
modulation of, promotion and reversal of brainstem bilirubin toxicity in newborn primate by, 6
post-ischemic CBF response, PEG-SOD and, 530
ventilatory response to, maturation of, in newborn piglets, 485
- Cardiovascular function
effects of low-dose dopamine infusion on, in preterm neonates, 742
response to acute hypoxemia, in fetal lambs, 51
- Carnitine
deficiency
secondary, 89
valproic acid-associated, *in vitro* model of, 281
drug-induced depletion, 460
renal handling in secondary carnitine deficiency disorders, 89
repletion in cystinosis, 115
uptake, effects of valproic acid on, 281
- Catalase-deficient peroxisomal particles, with partial deficiency of plasmalogen synthesis, in pseudo infantile Refsum's disease, 270
- Catecholamine, plasma levels, effects of low-

- dose dopamine infusion on, in preterm neonates, 742
- Celiac disease, fibroblast-derived autoantigens, 420
- Cerebral blood flow
effects of low-dose dopamine infusion on, in preterm neonates, 742
post-ischemic CO₂ response, PEG-SOD and, 530
regional, after fetal asphyxia, flunarizine and, 379
velocity
developmental and physiologic changes in, 385
influence of MABP, PCO₂, and PO₂ on, in preterm infants, 173
- Cerebral circulation, effects of N- ω -nitro-L-arginine methylester on, 354
- Cerebral glycolytic rates, agonal, during hypercarbia, 370
- Cerebral oxygenation, neonatal, determination by near-infrared spectroscopy, effect of fetal Hb on, 15
- Cerebral vascular bed, influence of indomethacin on autoregulatory ability of, in newborn lamb, 178
- Cerebrospinal fluid, levels of pterins, HVA, and HIAA, 10
- Chemoreceptor responses, in fetus, 51
- Cholinephosphate cytidyltransferase, mass, in developing rat lung, 502
- Ciliary dyskinesia, primary, membrane fluidity of polymorphonuclear leukocytes in, 725
- Circulation, cerebral, effects of N- ω -nitro-L-arginine methylester on, 354
- Clinical competencies, self-perceived, in primary care residency graduates, 555
- Cocaine, prenatal, effect on striatal dopamine, 389
- Cold, response to, in fetal sheep, 47
- Colon, infant, influence of acetate on sodium transport in, 666
- Colonic acetate, in circulating acetate pool of infant pig, 318
- Colostrum, anti-inflammatory activity in, 208
- Complement activation, in newborn infants, 199
- Complement anaphylatoxin C5a, pulmonary fluid levels, in chronic lung disease, 586
- Congenital adrenal hyperplasia, salt-wasting, 3 β -hydroxysteroid dehydrogenase gene mutation in, 698
- Congenital heart disease, respiratory mechanics and, 329
- Core temperature, transcutaneous, 512
- Cystic fibrosis
anti-HSP60 antibodies in, 424
elevated IL-8 with, 159
lipids in, TNF- α and, 162
- Cystinosis, nephropathic, muscle carnitine repletion in, 115
- Cytidine 5'-triphosphate, immunoreactive, expression of, 502
- Cytidyltransferase, mass, in rat lung, 502
- Cytokines
and neonatal polymorphonuclear leukocyte, 249
production in milk cells, 213
- Deferoxamine, effect on alveoli formation in rat lung, 334
- 5-Deiodinase, placental, in selenium-deficient rats, 288
- Development: *see also* Maturation
cerebral blood flow velocity changes, 385
- fetal lung, effect of fetal breathing movements on, 148
- lung, tissue inhibitor of metalloproteinase-1 gene expression in, 729
- renal, and α_1 B-adrenoceptor, 124
- renal hemodynamics, 750
- Dexamethasone
effects on alveoli formation in rat lung, 334
effects on pulmonary fluid C5a levels in chronic lung disease, 586
- Diabetes mellitus
anti-HSP60 antibodies in, 424
insulin-dependent, antibodies to glutamic acid decarboxylase in, 785
insulin-dependent mothers
newborn, postnatal glucose kinetics in, 443
newborn, rates of urea synthesis in, 801
in pregnancy, 791
- 23,25-Dihydroxyvitamin D₃, placental synthesis of, 98
- 24,25-Dihydroxyvitamin D₃, placental synthesis of, 98
- Dopamine
in developing tubule, 308
effect on neonatal growth hormone and prolactin, 642
low-dose infusion, effects on preterm neonates, 742
metabolites, cerebrospinal fluid levels, 10
striatal, effect of prenatal cocaine on, 389
- Doppler velocimetry, study of cord compression effects on fetal hemodynamic changes induced by maternal O₂ administration in sheep, 796
- Drug-induced carnitine depletion, 460
- EGF: *see* Epidermal growth factor
- Elastic unloading, ventilation with, 600
- Embryo, chick, hemodynamics of, 44
- Endothelial cells, reactive oxygen metabolites in, nucleotide depletion due to, 572
- Endothelin, effects on renal function, in newborn rabbits, 120
- Endothelium-derived nitric oxide
effects on renal hemodynamics and function in sheep fetus, 755
effects on renal hemodynamics in developing piglet, 750
- End-systolic pressure-volume relationship, in acidemic fetal sheep, 38
- Enterocolitis, necrotizing
prevention of, role of PAF-acetylhydrolase in, 237
research agenda for, 701
- Eosinophils, fetal, L-selectin expression of, 253
- Epidermal growth factor, effect on fetal lung antioxidant enzymes during hyperoxia, 577
- Erythrocytes, neonatal, mechanical and geometrical properties of, 688
- Erythropoietin, treatment of anemia of prematurity with, 675
- Escherichia coli*
0111 B4 lipopolysaccharide, blood-brain barrier opening induced by, in newborn pigs, 182
meningitis, neurotransmitters in, 187
- Ether vapor, pituitary-adrenal response to, in weanling animal, 646
- Fåhræus effect, of neonatal red blood cell suspensions, 538
- Fåhræus-Lindqvist effect, of neonatal red blood cell suspensions, 538
- Familial defective apo B, molecular genetics of, 403
- Familial hypercholesterolemia, molecular genetics of, 403
- Fatal infection, anti-TNF antibodies and nitric oxide suppression in rat model, 345
- Fatty acid oxidation
contribution to ATP production in neonatal hearts, 735
in pseudo infantile Refsum's disease, 270
- Fetal breathing, inhibition of, pilot study, 834
- Fetal breathing movements, effect on fetal lung development, 148
- Fetal heart rate, fluctuations, spectral analysis of, 134
- Fetal medicine, APS Presidential Address, 393
- Fetus
asphyxia, flunarizine after, neuroprotective properties of, 379
autonomic state, spectral analysis of, 134
chemoreceptor responses in, 51
eosinophils, L-selectin expression of, 253
glucose, regulation of fetal plasma IGF-I by, 62
granulocytes, L-selectin expression of, 253
hemodynamic changes induced by maternal O₂ administration, effects of cord compression on, Doppler study, 796
hemoglobin, and NIRS neonatal monitoring, 15
hypoxemia, acute, cardiovascular response to, in lambs, 51
insulin effect in, ontogeny of, 654
lung
antioxidant enzymes, effect of EGF on, during hyperoxia, 577
development of, effect of fetal breathing movements on, 148
macrosomia, in offspring of rats subjected to protein-energy malnutrition, 791
neutrophils, L-selectin expression of, 253
renal function and hemodynamics, effects of endothelium-derived nitric oxide on, in sheep, 755
selenium-deficient, thyroid hormone economy in, in rats, 288
- Fibroblast-derived celiac disease autoantigens, purification of, 420
- Flunarizine, neuroprotective properties of, after fetal asphyxia, 379
- Follicle-stimulating hormone, bioactive, in girls during puberty, 829
- Formyl-methionyl-leucyl-phenylalanine binding studies, of priming of newborn polymorphonuclear neutrophilic granulocytes, 243
- Galactose-1-phosphate uridyltransferase, rat, modulation of, 416
- Garlic-flavored milk, repeated exposure to, effects on nursing's behavior, 805
- Gas exchange, effects of surfactant treatment on, 495
- Genetics
of hyperlipidemia, 403
of Pearson's syndrome, 105
- Glial cells, effect of caffeine on, in newborn rat, 716
- Glucocorticoids, inhibitory effect on adrenocorticotropin secretion, 646
- Glucose
fetal, regulation of fetal plasma IGF-I by, 62
oxidation, contribution to ATP production in neonatal hearts, 735
postnatal kinetics in IDM, 443
 β -Glucuronidase, recombinant, enzyme re-

- placement with, in mucopolysaccharidosis VII, 837
- Glutamic acid decarboxylase, antibodies to, in insulin-dependent diabetes mellitus, 785
- Glycogen storage disease type 1b, monocyte-derived macrophage respiratory burst defect, interferon- γ correction of, 265
- Glycolysis
cerebral agonal rates, during hypercarbia, 370
contribution to ATP production in neonatal hearts, 735
- Gonadotropin, concentration profiles in boys, 229
- Granulocyte colony-stimulating factor gene expression, in activated cord *versus* adult mononuclear cells, 560
- Granulocyte-macrophage colony-stimulating factor gene expression, in activated cord *versus* adult mononuclear cells, 560
- Granulocytes, fetal, L-selectin expression of, 253
- Growth and development: *see* Development
- Growth hormone
neonatal, dopamine effect on, 642
placental, and intrauterine growth retardation, 439
resistance, in HIV-1 infection, 66
- Heart disease, congenital, respiratory mechanics and, 329
- Heart rate: *see also* Fetal heart rate dynamics during infancy, 618
- Hearts
ischemic, age-dependency of L-propionylcarnitine on, 465
neonatal
adenosine triphosphate production in, source of, 735
effects of pituitary adenylate cyclase activating polypeptide in, in pig, 323
- 60-kd Heat shock protein, human, antibodies to, in juvenile chronic arthritis, 424
- Hematopoiesis, neonatal, IL-11 and, 56
- Hemodynamics
chick embryo, 44
fetal, effects of cord compression on changes induced by maternal O₂ administration, Doppler study in sheep, 796
renal, effects of endothelium-derived nitric oxide on
in developing piglet, 750
in sheep fetus, 755
- Hemoglobin, fetal, and NIRS neonatal monitoring, 15
- Hepatitis B virus, hormonal regulation of, 300
- HIV: *see* Human immunodeficiency virus
- Homovanillic acid, cerebrospinal fluid levels, 10
- Howland Award
acceptance address, 552
presentation to Barness, 551
- Human immunodeficiency virus-derived peptide, potentiation of brain injury by, 192
- Human immunodeficiency virus infection
congenital, immune complexes in, 781
decreased oxidative burst in, 544
- Human immunodeficiency virus-1 infection, hormone resistance in, 66
- Human leukocyte antigen-DR, increased expression on pulmonary macrophages in bronchopulmonary dysplasia, 341
- Hyaline membrane disease, effects of surfactant treatment on gas exchange in newborn premature infants with, 495
- Hyaluronan secretion, effect of caffeine on, in newborn rat, 716
- Hydrogen peroxide, decreased production in HIV-infection, 544
- D-2-Hydroxyglutaric acid, stable-isotope dilution analysis of, 277
- L-2-Hydroxyglutaric acid, stable-isotope dilution analysis of, 277
- D-2-Hydroxyglutaric acidemia, detection and prenatal diagnosis of, 277
- L-2-Hydroxyglutaric acidemia, detection and prenatal diagnosis of, 277
- 5-Hydroxyindoleacetic acid, cerebrospinal fluid levels, 10
- β -Hydroxysteroid dehydrogenase gene mutation, in salt-wasting CAH, 698
- Hypercapnic cerebral blood flow, post-ischemic, PEG-SOD and, 530
- Hypercarbia
agonal cerebral glycolytic rates during, 370
and bilirubin toxicity, 6
- Hypercholesterolemia, familial, molecular genetics of, 403
- Hyperinsulinism, in offspring of rats subjected to protein-energy malnutrition, 791
- Hyperlipidemia, genetics of, 403
- Hyperoxia
effect of EGF on fetal lung antioxidant enzymes during, 577
effect on alveoli formation in rat lung, 334
oxidant stress responses in premature infants during, 360
- Hypertension, pulmonary, lung bactericidal activity and, 32
- Hyperthermia, apnea and REM sleep excess in piglet during recovery from, 518
- Hypobetalipoproteinemia, molecular genetics of, 403
- Hypothermia, and hypoxic-ischemic brain damage, 525
- Hypothyroidism
congenital, somesthetic pathway and treatment in first year, 73
jejunal function in, 79
- Hypoxanthine, concentrations, in intermittent *versus* continuous hypoxemia, 767
- Hypoxemia
acute
effects on laryngeal reflex apnea in lambs, 813
fetal cardiovascular response to, in lambs, 51
chronic, myocardial metabolism in, in lambs, 471
intermittent *versus* continuous, hypoxanthine, xanthine, and uric acid concentrations in, 767
prolonged
effects on laryngeal reflex apnea in lambs, 813
effects on ventilatory response to changes in Pao₂ in lambs, 821
relationship between bradycardia and apnea and, in preterm infants, 144
- Hypoxia, chronic, effect on sulfonyleurea receptors in rat brain, 634
- Hypoxic acidemia, effects on left ventricular end-systolic elastance in fetal sheep, 38
- Hypoxic-ischemic brain damage
hypothermia and, 525
monosialoganglioside GM1 and, 18
- oxygen radical scavengers with magnesium and, 23
- Hypoxic vasoconstriction, effect of N ω -nitro-L-arginine methylester on, in neonatal pig lung, 349
- Immune complexes, in juvenile rheumatoid arthritis and AIDS, 781
- Immunoglobulin G-containing high-molecular-weight complexes, in juvenile rheumatoid arthritis and AIDS, 781
- Immunoglobulins, production of, enhancement by human cord blood lymphocytes, 565
- Indomethacin
and newborn brain, 178
therapeutic dose, effect on brain superoxide anion generation in asphyxia, 366
- Infants: *see also* Neonates
appropriate for gestational age, placental transport in, 661
body fat in, 448
colon, influence of acetate on sodium transport in, 666
colonic acetate in circulating acetate pool, in pigs, 318
of diabetic mothers
postnatal glucose kinetics in, 443
rates of urea synthesis in, 801
heart rate dynamics in, 618
nursling behavior, effects of repeated exposure to garlic-flavored milk on, 805
premature
bradycardia, apnea, and hypoxemia in, 144
of less than 33 weeks' gestation, cerebral blood flow velocity, influence of MABP, PCO₂, and PO₂ on, 173
of less than 35 weeks' gestational age, sleep state organization in, 624
oxidant stress in, 360
with hyaline membrane disease, effects of surfactant treatment on gas exchange in, 360
respiratory mechanics, before and after left-to-right shunts, 329
small for gestational age
placental transport in, 661
rates of urea synthesis in, 801
urinary insulin-like growth factor-II output in, 435
very low birth weight, selenium status of, 293
- Infection
early onset, complement activation in newborn infants with, 199
fatal, anti-TNF antibodies and nitric oxide suppression in rat model, 345
- HIV
congenital, immune complexes in, 781
decreased oxidative burst in, 544
HIV-1, hormone resistance in, 66
respiratory syncytial virus, antibody treatment of, 167
- Inflammation, rat subcutaneous air pouch model, anti-inflammatory activity in human colostrum in, 208
- Insulin-dependent diabetes mellitus
antibodies to glutamic acid decarboxylase in, 785
newborns of mothers with
postnatal glucose kinetics in, 443
rates of urea synthesis in, 801
- Insulin effect, fetal, ontogeny of, 654
- Insulin-like growth factor-I
plasma, fetal glucose regulation of, 62
resistance in HIV-1 infection, 66

- Insulin-like growth factor-II, urinary output, in infants and children, 435
- Insulin-like growth factor II gene expression, in fetal lungs, fetal breathing movements and, 148
- Insulin resistance, in HIV-1 infection, 66
- Interferon- γ , and glycogen storage disease type 1b monocyte-derived macrophage respiratory burst, 265
- Interleukin-8
elevated concentrations, with cystic fibrosis, 159
induction of expression in neuroblastoma cells by retinoic acid, effect of leukocyte chemotaxis on, 720
- Interleukin-1, elevated expression in neonatal neutrophils, 249
- Interleukin-3, gene expression, 560
- Interleukin-11, and neonatal hematopoiesis, 56
- Intrapulmonary arteries, adrenoreceptor maturation in, 591
- Intratracheal pulmonary ventilation, technique, 606
- Intrauterine growth retardation, placental growth hormone and, 439
- Iron deficiency, in adolescents, 680
- Iron status, serum transferrin receptor assessment of, in prepubertal boys, 297
- Ischemia, CBF CO₂ response, PEG-SOD and, 530
- Islet hyperplasia, in offspring of rats subjected to protein-energy malnutrition, 791
- Jaundice, reversible BAEP in Gunn rats with, 629
- Jejunal function, in hypothyroid rats, 79
- Juvenile chronic arthritis, anti-HSP60 antibodies in, 424
- Juvenile rheumatoid arthritis
immune complexes in, 781
 α_2 -MG complexes in, 204
- Kidney: *see* Renal
- KP-1 cells, 258
- Lactate metabolism, regulation by albumin, 709
- Lactate oxidation, contribution to ATP production in neonatal hearts, 735
- Laryngeal reflex apnea, effects of hypoxemia on, in lambs, 813
- Left-to-right shunts, respiratory mechanics before and after, 329
- Left ventricular end-systolic elastance, effects of hypoxic acidemia on, in fetal sheep, 38
- Left ventricular oxygen and substrate uptake, in chronically hypoxemic lambs, 471
- Leukemia, KP-1 monocytic cell lines, 258
- Leukocytes
chemotaxis, effect on retinoic acid-induced neuroblastoma cell differentiation, 720
polymorphonuclear
membrane fluidity in primary ciliary dyskinesia, 725
neonatal, cytokines and, 249
- Lipid disorders, molecular genetics of, 403
- Lipids, in cystic fibrosis, TNF- α and, 162
- Lipopolysaccharide
blood-brain barrier opening induced by, in newborn pigs, 182
priming of newborn polymorphonuclear neutrophilic granulocytes with, 243
- Lipoprotein(a)
in children from infarction kindreds, 670
serum levels, in chronic renal disease, 772
- Lipoprotein lipase deficiency, molecular genetics of, 403
- Liposomal zinc protoporphyrin, targeted to spleen, using reticuloendothelial blockade with blank liposomes, 1
- Long-chain acyl-CoA dehydrogenase deficiency, 111
- Lung: *see also* Pulmonary
alveoli formation in, in rats, 334
bactericidal activity, and pulmonary hypertension, 32
cytidyltransferase mass in, in developing rat, 502
development of, tissue inhibitor of metalloproteinase-1 gene expression in, 729
- fetal
antioxidant enzymes, effect of EGF on, during hyperoxia, 577
development of, effect of fetal breathing movements on, 148
neonatal, effect of N ω -nitro-L-arginine methylester on hypoxic vasoconstriction in, in pig, 349
perinatal, antioxidant enzyme gene expression in, in rat, 27
- Lung disease, chronic, pulmonary fluid C5a levels, 586
- Luteinizing hormone
bioactive, in girls during puberty, 829
and testosterone, temporal relationship between, 229
- Lymphocytes, human cord blood, enhancement of immunoglobulin production by, 565
- Lysine, plasma concentrations and urinary output in drug-induced carnitine depletion, 460
- α_2 -Macroglobulin, intraarticular complexes, in juvenile rheumatoid arthritis, 204
- Macrophage colony-stimulating factor gene expression, in activated cord *versus* adult mononuclear cells, 560
- Macrophages
glycogen storage disease type 1b monocyte-derived, respiratory burst defect in, interferon- γ correction of, 265
pulmonary, in bronchopulmonary dysplasia, 341
scavenger receptor, human, new monocyte cell line with, 258
- Macrosomia, fetal, in offspring of rats subjected to protein-energy malnutrition, 791
- Magnesium, oxygen radical scavengers in combination with, and hypoxic-ischemic brain damage, 23
- Malnutrition, maternal, pregnancy after, 791
- Maturation: *see also* Development
of adrenoreceptor, intrapulmonary, 591
of ventilatory response to carbon dioxide in newborn piglets, 485
- Mean arterial blood pressure, influence on cerebral blood flow velocity in preterm infants, 173
- Mechanical ventilation, assisted, with elastic unloading, 600
- Medium-chain acyl-coenzyme A dehydrogenase, mutant, expression and characterization of, 694
- Meningitis
E. coli, neurotransmitters in, 187
neonatal, LPS-induced blood-brain barrier opening during, 182
- Metabolic system, responses to cold, in fetal sheep, 47
- Metalloproteinase-1, tissue inhibitor of, gene expression in lung development, 729
- N-Methyl-D-aspartate-mediated brain injury, HIV peptide potentiation of, 192
- Mevalonate kinase deficiency, 129
- Microbicidal activity, lung, and pulmonary hypertension, 32
- Milk cells, cytokine production in, 213
- Milk factors, undernutrition and, 217
- Mixed connective tissue disease, anti-HSP60 antibodies in, 424
- Molecular analyses
genetics of pediatric lipid disorders, 403
of Pearson's syndrome, 105
- Monocyte-derived macrophage, glycogen storage disease type 1b, respiratory burst defect in, interferon- γ correction of, 265
- Monocytes, decreased superoxide anion and hydrogen peroxide production in HIV-infection, 544
- Monocytic leukemia cell lines, KP-1 (with scavenger receptor), 258
- Mononuclear cells, activated cord *versus* adult, transcriptional rates of GM-CSF, G-CSF, IL-3, and M-CSF genes in, 560
- Monosialoganglioside GM1, and hypoxic-ischemic brain damage, 18
- Mucopolysaccharidosis VII, enzyme replacement in, 837
- Muscle carnitine, repletion in cystinosis, 115
- Myocardial infarction, premature, parental, lipoprotein(a) in children from kindreds with, 670
- Myocardial ischemia, control by L-propionylcarnitine, 465
- Myocardial metabolism, in chronically hypoxemic lambs, 471
- Near-infrared spectroscopy
neonatal monitoring, fetal Hb and, 15
quantification of cerebral effects of N ω -nitro-L-arginine methylester in newborn piglets by, 354
- Necrotizing enterocolitis
prevention of, role of PAF-acetylhydrolase in, 237
research agenda for, 701
- Neonates: *see also* Premature infants
asphyxic, resuscitation with 21% or 100% O₂, 809
brain, indomethacin and, 178
brain cells, effect of caffeine on, in rat, 716
cerebral circulation, effects of N ω -nitro-L-arginine methylester on, in piglets, 354
cerebral oxygenation, determination by near-infrared spectroscopy, effect of fetal Hb on, 15
complement activation in, 199
dopamine effect on growth hormone and prolactin in, 642
- heart
adenosine triphosphate production in, source of, 735
effects of pituitary adenylate cyclase activating polypeptide in, in pigs, 323
hematopoiesis, IL-11 and, 56
of insulin-dependent diabetic mothers, postnatal glucose kinetics in, 443
lung, effect of N ω -nitro-L-arginine methylester on hypoxic vasoconstriction in, in pigs, 349
meningitis, experimental, LPS-induced blood-brain barrier opening during, 182
mucopolysaccharidosis VII, enzyme replacement in, in mice, 837

- neutrophils, elevated IL-1 expression in, 249
- polymorphonuclear leukocyte, cytokines and, 249
- polymorphonuclear neutrophilic granulocyte, priming of, 243
- pulmonary capillary recruitment in, in lambs, 596
- purine and pyrimidine excretion in, 762
- red blood cell mechanics in, 688
- red blood cell suspensions, Fåhræus and Fåhræus-Lindqvist effects of, 538
- renal function, effects of endothelin on, in rabbits, 120
- urea synthesis rates in, 801
- vagal response, time-dependent changes in, 139
- ventilatory response to carbon dioxide, maturation of, in piglets, 485
- Nephropathic cystinosis, muscle carnitine repletion in, 115
- Nephrotic syndrome
- oligosaccharides in, 429
 - peritonitis associated with, role of I and B in, 84
- Neuroblastoma cells, retinoic acid-induced differentiation, effect of leukocyte chemotaxis on, 720
- Neurotransmitters, in *E. coli* meningitis, 187
- Neutrophils
- decreased superoxide anion and hydrogen peroxide production in HIV-infection, 544
 - fetal, L-selectin expression of, 253
 - neonatal, elevated IL-1 expression in, 249
- Newborn: *see* Neonates
- Nitric oxide
- endothelium-derived
 - effects on renal hemodynamics and function in sheep fetus, 755
 - effects on renal hemodynamics in developing piglet, 750
 - in PAF-induced bowel injury, 222
 - suppression of, anti-TNF antibodies and, 345
- N- ω -nitro-L-arginine methylester
- cerebral effects, 354
 - effect on pulmonary circulation, 349
- Nucleotides
- depletion due to reactive oxygen metabolites in endothelial cells, 572
 - immunomodulating actions of, 565
- Nurslings, behavior of, effects of repeated exposure to garlic-flavored milk on, 805
- Nutrition, Howland Award acceptance address, 552
- Oligohydramnios, respiratory function after, 611
- Oligosaccharides, in nephrotic syndrome, 429
- Ornithine transcarbamylase, congenital deficiency, peripheral-type benzodiazepine sites in, 777
- Oxidant stress, in premature infants, 360
- Oxidative burst, decreased, in HIV-infection, 544
- Oxygen
- arterial partial pressure, changes in, effect of prolonged hypoxemia on ventilatory response to, in lambs, 821
 - maternal administration of, fetal hemodynamic changes induced by, effects of cord compression on, Doppler study, 796
 - metabolites, reactive, in endothelial cells, nucleotide depletion due to, 572
 - 21% or 100%, resuscitation of asphyxial newborn infants with, 809
 - partial pressure, influence on cerebral blood flow velocity in preterm infants, 173
- Oxygenation, cerebral, neonatal, determination by near-infrared spectroscopy, effect of fetal Hb on, 15
- Oxygen radical scavengers, in combination with magnesium, and hypoxic-ischemic brain damage, 23
- Pearson's syndrome, molecular and genetic analyses of, 105
- Peptide, HIV, potentiation of brain injury by, 192
- Peritonitis, proteins I and B in, 84
- Peroxisomal particles, catalase-deficient, with partial deficiency of plasmalogen synthesis, in pseudo infantile Refsum's disease, 270
- Pituitary adenylate cyclase activating polypeptide, effects in neonatal pig hearts, 323
- Pituitary-adrenal axis, response to ether vapor, in weanling animal, 646
- Placenta
- 5-deiodinase activity, in selenium-deficient rat, 288
 - growth hormone, and intrauterine growth retardation, 439
 - 24,25(OH)₂D₃ and 23,25(OH)₂D₃ synthesis, 98
- Placental transport, in appropriate and small for gestational age babies, 661
- Plasmalogen synthesis, catalase-deficient peroxisomal particles with partial deficiency of, in pseudo infantile Refsum's disease, 270
- Platelet-activating factor-acetylhydrolase, role in prevention of necrotizing enterocolitis, 237
- Platelet-activating factor-induced bowel injury
- ischemic necrosis, 237
 - nitric oxide in, 222
- Polyethylene glycol-conjugated superoxide dismutase, and post-ischemic CBF CO₂ response, 530
- Polymorphonuclear leukocytes
- membrane fluidity of, in primary ciliary dyskinesia, 725
 - neonatal, cytokines and, 249
- Polymorphonuclear neutrophilic granulocyte, newborn, priming of, 243
- Pregnancy, after maternal malnutrition, 791
- Premature infants
- bradycardia, apnea, and hypoxemia in, 144
 - effects of low-dose dopamine infusion on, 742
 - of less than 33 weeks' gestation, cerebral blood flow velocity, influence of MABP, PCO₂, and PO₂ on, 173
 - of less than 35 weeks' gestational age, sleep state organization in, 624
 - oxidant stress in, 360
 - with hyaline membrane disease, effects of surfactant treatment on gas exchange in, 360
- Prematurity, anemia of, erythropoietin treatment in, 675
- Primary care residency graduates, clinical competencies in, 555
- Prolactin, neonatal, dopamine effect on, 642
- L-Propionylcarnitine, age-dependency of, on ischemic hearts, 465
- Protein-energy malnutrition, maternal, pregnancy after, 791
- Proteins I and B, role in peritonitis, 84
- Proteolytic activity, in juvenile rheumatoid arthritis, 204
- Pseudo infantile Refsum's disease, 270
- Pterins, cerebrospinal fluid levels, 10
- Puberty
- bioactive luteinizing and follicle-stimulating hormone in girls during, 829
 - calcium kinetics changes during, 455
- Pulmonary arteries, adrenoreceptor maturation in, 591
- Pulmonary capillary recruitment, in neonatal lambs, 596
- Pulmonary circulation, effect of N ω -nitro-L-arginine methylester on, 349
- Pulmonary fluid, C5a levels, in chronic lung disease, 586
- Pulmonary hypertension, lung bactericidal activity and, 32
- Pulmonary macrophages, in bronchopulmonary dysplasia, 341
- Pulmonary ventilation, intratracheal, 606
- Purine metabolites, neonatal excretion, 762
- Pyrimidine metabolites, neonatal excretion, 762
- Rapid eye movement sleep, excess, during recovery from hyperthermia, 518
- Red blood cells
- neonatal, mechanical and geometrical properties of, 688
 - suspensions, neonatal, Fåhræus and Fåhræus-Lindqvist effects of, 538
- Reflex apnea, laryngeal, effects of hypoxemia on, in lambs, 813
- Refsum's disease, pseudo infantile, 270
- Regional blood flow, responses to cold, in fetal sheep, 47
- Renal cortical and medullary tubule cells, effect of dopamine on adenylate cyclase and Na⁺,K⁺-ATPase in, in developing rat, 308
- Renal disease, chronic, lipoprotein(a) serum levels in, 772
- Renal function
- developmental regulation of α_1 B-adrenoreceptor, 124
 - effects of endothelin on, in newborn rabbits, 120
 - effects of endothelium-derived nitric oxide on, in sheep fetus, 755
 - effects of low-dose dopamine infusion on, in preterm neonates, 742
 - handling of carnitine in secondary carnitine deficiency disorders, 89
- Renal hemodynamics, effects of endothelium-derived nitric oxide on
- in developing piglet, 750
 - in sheep fetus, 755
- Respiration, during recovery from hyperthermia, 518
- Respiratory failure, distribution of exogenous surfactant with, 154
- Respiratory function, after oligohydramnios, 611
- Respiratory mechanics, before and after left-to-right shunts, 329
- Respiratory syncytial virus infection, antibody treatment of, 167
- Respiratory syncytial virus-specific immune serum, treatment of respiratory syncytial virus infection with, 167
- Resuscitation, with 21% or 100% O₂, 809
- Reticuloendothelial blockade, with blank liposomes, zinc protoporphyrin liposomes targeted to spleen using, 1
- Retinoic acid-induced neuroblastoma cell

- differentiation, effect of leukocyte chemotaxis on, 720
 Rheumatoid arthritis. *see* Juvenile rheumatoid arthritis
 Scavenger receptor, human macrophage, new monocyte cell line with, 258
 L-Selectin, expression of fetal granulocytes, 253
 Selenium deficiency, effects on placental 5-deiodinase activity and fetal thyroid hormone economy in rat, 288
 Selenium status, of very low birth weight infants, 293
 Serotonin metabolites, cerebrospinal fluid levels, 10
 Serpin, synthesis by trophoblast, 312
 Shunts, left-to-right, respiratory mechanics before and after, 329
 Sleep, REM, excess, during recovery from hyperthermia, 518
 Sleep states, organization in very premature infants, 624
 Sleep-waking states, heart rate dynamics during, 618
 Small for gestational age infants
 placental transport in, 661
 rates of urea synthesis in, 801
 Society for Pediatric Research, Presidential Address, 397
 Sodium, potassium adenosine triphosphatase, in developing tubule, effect of dopamine on, 308
 Sodium transport, influence of acetate on, 666
 Somesthetic pathway, and treatment for congenital hypothyroidism in first year, 73
 Spectroscopy
 fetal autonomic state by, 134
 near-infrared
 neonatal monitoring, fetal Hb and, 15
 quantification of cerebral effects of N- ω -nitro-L-arginine methylester in newborn piglets by, 354
 Spleen, zinc protoporphyrin liposomes targeted to, using reticuloendothelial blockade with blank liposomes, 1
 Stable-isotope dilution analysis, of D- and L-2-hydroxyglutaric acid, 277
 Subcutaneous adipose tissue, estimation of, in infants, 448
 Sulfonamide, effect on BAEP abnormalities in jaundiced Gunn rats, 629
 Sulfonylurea receptors, effect of hypoxia on, in rat brain, 634
 Superoxide, in asphyxia, 366
 Superoxide anion, decreased production in HIV-infection, 544
 Surfactant
 effects on gas exchange, 495
 exogenous
 distribution of, 154
 instillation of, effects of, 490
 fetal lung, effect of EGF on, during hyperoxia, 577
 Sympathoadrenal system, responses to cold, in fetal sheep, 47
 Systemic blood pressure, flunarizine and, after fetal asphyxia, 379
 Systemic lupus erythematosus, anti-HSP60 antibodies in, 424
 Temperature, transcutaneous core, 512
 Testosterone
 concentration profiles in boys, 229
 luteinizing hormone and, temporal relationship between, 229
 Thyroid hormone, fetal economy, in selenium-deficient rats, 288
 Tissue inhibitor of metalloproteinase-1 gene, expression in lung development, 729
 Total body fat, estimation in infants, 448
 Transcutaneous core temperature, 512
 Transferrin receptor, serum, in prepubertal boys, 297
 ϵ -N-Trimethyllysine, plasma concentrations and urinary output in drug-induced carnitine depletion, 460
 Trophoblast, serpin synthesis by, 312
 Tubule cells, developing rat renal cortical and medullary, effect of dopamine on adenylate cyclase and Na⁺,K⁺-ATPase in, 308
 Tumor necrosis factor- α
 and lipids in cystic fibrosis, 162
 priming of newborn polymorphonuclear neutrophilic granulocytes with, 243
 Tumor necrosis factor, antibodies to, and nitric oxide suppression, 345
 Ubiquinone-10, decreased plasma concentrations, with mevalonate kinase deficiency, 129
 Umbilical cord blood
 lymphocytes, enhancement of immunoglobulin production by, 565
 mononuclear cells, activated, transcriptional rates of GM-CSF, G-CSF, IL-3, and M-CSF genes in, 560
 Umbilical cord blood-derived polymorphonuclear neutrophilic granulocyte, newborn, priming of, 243
 Umbilical cord compression, effects on fetal hemodynamic changes induced by maternal O₂ administration, Doppler study, 796
 Undernutrition, and milk factors, 217
 Urea synthesis rates, in newborn infants, 801
 Uric acid
 concentrations, in intermittent *versus* continuous hypoxemia, 767
 inhibition of xanthine oxidase in human plasma by, 303
 Vagal nerve, neonatal, response, time-dependent changes in, 139
 Valproic acid, effects on carnitine uptake, 281
 Valproic acid-associated carnitine deficiency, *in vitro* model of, 281
 Vasoconstriction, hypoxic, effect of N- ω -nitro-L-arginine methylester on, in neonatal pig lung, 349
 Ventilation
 with elastic unloading, 600
 intratracheal pulmonary, 606
 response to carbon dioxide, maturation of, in newborn piglets, 485
 response to changes in Pao₂, in lambs, 821
 Very-long-chain acyl-CoA dehydrogenase deficiency, identification of, 111
 Very low birth weight infants, selenium status of, 293
 Xanthine, concentrations, in intermittent *versus* continuous hypoxemia, 767
 Xanthine oxidase, uric acid inhibition of, in human plasma, 303
 Zinc protoporphyrin liposomes, targeted to spleen, using reticuloendothelial blockade with blank liposomes, 1
