

Erratum

In the article “Protein Carbonyls and Lipid Peroxidation Products as Oxidation Markers in Preterm Infant Plasma: Associations with Chronic Lung Disease and Retinopathy and Effects of Selenium Supplementation” by C. C. Winterbourn *et al.* (Pediatr Res 48:84–90, 2000), the legend for Figure 1 on page 86 incorrectly identifies the hatched and clear boxes. The clear boxes should refer to < 1000 g infants and the hatched boxes should refer to 1000–1499 g infants.
