

## Erratum

In the article “Failure of the Loop Diuretic Torasemide to Improve Renal Function of Hypoxic Vasomotor Nephropathy in the Newborn Rabbit” by L. Dubourg *et al.* (*Pediatr Res* 47:504–508, 2000), the last two columns of Table 1 on page 506 did not appear in print and the last item in the first column should read “U<sub>k</sub> V” rather than “UK”. The corrected table is reproduced below:

For explanation see text (Material and Methods, Fig. 1).

The data (mean ± sem) in each group of animals are the mean of two 30-min urine collections (U1/U2, U3/U4, U5/U6) with or without the administration of torasemide (Torem<sup>®</sup>).

<sup>a,b</sup>  $p < 0.05$ ,  $p < 0.01$ , respectively, vs control same group.

<sup>c,d,e</sup>  $p < 0.05$ ,  $p < 0.01$ ,  $p < 0.001$ , respectively, vs same experimental period group 1.

\* P1–P5 are defined in Figure 1.
