Correction to: *Pediatric Research* (2016) 81, 622–631. doi:10.1038/pr.2016.270

In the published version of this article, on page 625, in the right column, the last sentence of the second full paragraph contains an erroneous negative sign. The correct sentence should read: “...(hazard ratio Test vs. Control group 0.56 (95% CI: 0.338–0.910), $P=0.0252$ and Test vs. Breastfed group 1.12 (95% CI: 0.601–2.102), $P=0.7205$; Figure 2). The publisher regrets the error.
