In Fig. 1 of this article the y-axis and the legend were wrong. Both should have appeared as shown below:

**Fig. 1 Trends in CLD-related infant mortality in the United States, 1999–2017.** Crude IMR per 100,000 infants with 95% CI shown, with trendlines generated by Joinpoint regression models reflecting changes over time. Panel (A) are all infants and Panel (B) are rates stratified among Black and White infants.

The original article has been corrected.
