Correction to: *Molecular Psychiatry* (2018); <https://doi.org/10.1038/s41380-017-0010-4>.

In the Table 1 legend, the reference numbers and symbols were not correctly presented in the footnotes. The corrected footnotes are presented below.

On the diagonal: Heritability estimates (and 95% CI) from pedigree/twin studies (lower, shaded orange) and genomewide SNP analyses (upper, shaded light blue). Also pairwise genetic correlations from pedigree/twin studies (below diagonal) and genomewide SNP analyses (above

diagonal) are shown. SNP-based estimates (light blue) are taken from ref. 77. Bolded entries: 95% CI does not include 0.0.
