The original article has been corrected.

Data availability

RNA-Seq results from *Adnp*-HT mice were deposited in the GEO (Gene expression Omnibus) database at NCBI under the accession number of GSE213354. Total proteomics data were deposited to the ProteomeXchange database under the accession number of PXD036544 (total) and PXD037325 (PTM).

The Data availability statement was incorrectly given as “RNA-Seq results from *Adnp*-HT mice were deposited in the GEO (Gene expression Omnibus) database at NCBI under the accession number of GSE213354 (reviewer token: mbcjwieophmdhit).” but should have been “RNA-Seq results from *Adnp*-HT mice were deposited in the GEO (Gene expression Omnibus) database at NCBI under the accession number of GSE213354.”
