

ANNOUNCEMENT

Thank you to all 2019 Mucosal Immunology Reviewers

Mucosal Immunology (2020) 13:383–384; <https://doi.org/10.1038/s41385-020-0284-8>

At *Mucosal Immunology*, we understand that a rigorous and fair peer-review process is essential to our scientific impact and reputation among scientists in our field. While our review process continues to improve, we are proud of the quality and fairness of the vast majority of reviews we receive. Below is a list of the many individuals willing to contribute to this process by providing at least one, and often many reviews during 2019. On behalf of the *Mucosal Immunology* editorial board, we thank you all for your time, energy, and expertise. Without you, *Mucosal Immunology* would not be the leading journal it is today.

Brian Kelsall *Editor-in-chief*
