Correction to: *Oncogene* <https://doi.org/10.1038/onc.2012.90>; published online 19 March 2012.

In Figure 4C, it was identified that the Histone H3 and α -Tubulin purification control blots for YES and LYN overexpressing cells were duplicated. The original Histone

H3 control blot was found and confirmed the published results; however, the α -Tubulin control blot was not found. This error was determined to not impact the scientific findings of this figure. The authors regret this error.
