Oncogene (2023) 42:2415; <https://doi.org/10.1038/s41388-023-02774-8>

Retraction to: *Oncogene* <https://doi.org/10.1038/s41388-020-01574-8>, published online 3 December 2020

The Editors-in-Chief have retracted this article. Concerns were raised regarding a number of figures, specifically:

Figure 4H appears to overlap with Figure 3g from [1] and Figure 2H from [2], both previously published in articles by different authors.

Figure 7D appears to overlap with Figures 8c and 8d from a previously published article by different authors [3]

The Editors-in-Chief therefore no longer have confidence in the results and conclusions of this article.

The Publisher has not been able to obtain a current email address for author Yuanwen Chen. The other authors have not responded to correspondence regarding this retraction.
