Correction to: *Pediatric Research* <https://doi.org/10.1038/s41390-021-01428-3>, published online 25 March 2021

Discussion section paragraph four first sentence should read “The small but statistically significant difference in cross-correlation of HR and SpO₂ between sites, especially in the first week after birth (Supplementary Fig. S7), may be an important finding since we identified its association with apnea and exaggerated periodic breathing.”

A Data and Code section was added containing the following text: “Summary data and code are available on UVA Dataverse at <https://doi.org/10.18130/V3/7UAPHU>”.

The original article has been corrected.
