

## Education at its finest

Patients depend upon dental professionals to supply them with the most up-to-date

information regarding oral health maintenance.

When you book a Waterpik Lunch & Learn, one of our Professional Educators will share their expertise on the Waterpik Water Flosser and how it can transform your patients' oral hygiene routines at home.

The Waterpik Professional Educator will come to your practice, give demonstrations and cover all the clinical research behind the product. All attendees will receive a free lunch and an hour of verifiable CPD upon completion. You'll also be given a free Waterpik Water Flosser demonstration model for the practice.

Book today at [www.waterpik.co.uk/professional/lunch-learn/](http://www.waterpik.co.uk/professional/lunch-learn/).

## Compliance made simple

Eschmann Care & Cover gives you peace of mind that your decontamination equipment is fully compliant to HTM01-05 and SDCEP guidance, whilst providing all the technical support you need through our nationwide team of Eschmann engineers.

With no hidden charges, Care & Cover includes Annual Validation and Pressure Vessel Certification, unlimited breakdown cover, unlimited Eschmann parts and

labour as well as enhanced CPD user training. Professionals will also receive technical telephone support in addition to nationwide on-site support. This helps to keep your practice running efficiently and with minimal downtime.

Full compliance is an essential and integral part of running a dental practice. With Care & Cover from Eschmann, you can maintain strict infection control measures with ease.

For more information on the highly effective and affordable range of infection control products from Eschmann, visit [www.eschmann.co.uk](http://www.eschmann.co.uk) or call 01903 875787.

## A greener choice

Patients care about the environment, and the impact of climate change. So choose TANDEX, a premium oral health brand that is committed to operating responsibly, as well as optimising health.

Part of its range is the WOODI interdental brush with an FSC-certified birchwood handle. In six sizes, it will efficiently remove debris for elevated everyday hygiene.

TANDEX sources materials locally and uses renewable energy in its factory. It is part of Operation Clean Sweep that aims to ensure plastic pellets, flakes and powders that pass through manufacturing don't end up in waterways, also the UN's Global Compact, the world's largest voluntary corporate sustainability initiative.

A choice for TANDEX is for products made with love for oral health and the planet. For more information on Tandex's range of products, visit <https://tandex.dk/>.

## Instruction, support and mentorship

The Straumann Group is proud to offer and support a myriad of training opportunities that deliver exceptional instruction, support and mentorship for all clinicians.

A wide variety of topics are available from orthodontics to business development and dental implantology, with options tailored to clinicians with varying degrees of previous experience in each field. Many offer a blended learning approach to allow flexibility and convenience, as well as being presented by some of the biggest names in their

respective disciplines. Whether you wish to introduce new services to your practice, progress your current skillset or give your business a boost, we can help.

For more information about the educational opportunities available through or supported by the Straumann Group, visit [www.straumann.com](http://www.straumann.com).
