

## Protect your future workflows

When you invest in a high-quality imaging system for your practice, you can guarantee its exceptional results for years to come with Carestream Dental's all new extended warranty offering.

Dental professionals can trust our 125 years of experience and innovation, providing continuously improved products in the field. With an extended warranty, Carestream Dental promises to repair and replace any part of any system, where at all possible.

The extended warranty covers intraoral solutions for up to five years, and extraoral products up to an astounding decade, to bring your practice complete peace of mind over its investments.

Plus, clinicians that own Carestream Dental solutions that are still under warranty can purchase new or additional warranty extensions, to further maintain the efficiency of their solutions, without extensive practice downtime.

For more information on Carestream Dental and our new extended warranties visit [www.carestreamdental.co.uk](http://www.carestreamdental.co.uk).

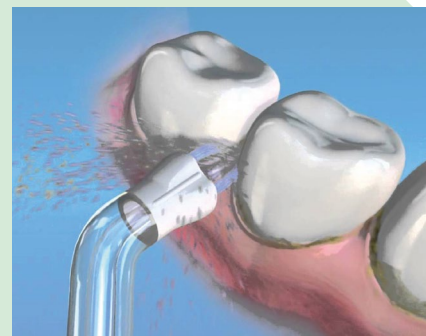

## Bossing the floss

For patients who find traditional flossing difficult or lack the manual dexterity required, the Waterpik Water Flosser provides the solution.

The Cordless Advanced removes up to 99.9% of plaque from treated areas and is up to 50% more effective for improving gum health compared to string floss. This model comes with four tips, three pressure settings, 360o tip rotation, a travel bag, global voltage and a 2-year warranty.

The Cordless Advanced also features a magnetic four-hour rapid charging system, ultra-quiet operation and waterproof design.

Studies support their efficacy over traditional methods of interdental cleaning: one study found that cleaning interproximal regions with a Water Flosser 'achieved more effective removal of interproximal

biofilm' compared to a sonic toothbrush. The Waterpik Water Flosser is also twice as effective as string floss for reducing gingival bleeding.

For more information on Waterpik Water Flosser products visit [www.waterpik.co.uk](http://www.waterpik.co.uk). Waterpik products are available from *Amazon*, *Costco UK*, *Argos*, *Boots*, *Superdrug* and *Tesco* online and in stores across the UK and Ireland.

## The powder and the glory

Preventive dentistry is all about maintaining good oral healthcare habits to ward off more serious problems in the future and professional cleaning is a key component in the dental arsenal.

The Proxeo Aura Air Polishing System from W&H can remove soft deposits and stains thoroughly and efficiently without changing the handpiece. The powders, handpiece and spray heads work together to allow complete and atraumatic supragingival and subgingival cleaning. The user can set the right working pressure to suit the clinical indications – prophy for the supragingival region and perio for the supra- and subgingival region. For patient comfort, the slender perio tip allows the

dental professional to work gently, even in deep pockets. The powder jet – with its focused spray pattern – also ensures controlled and efficient working.
