

For simpler, safe endodontics

Take the fear out of root canals with COLTENE. Its range of tools and materials for conservative, safe and successful endodontics are used by dentists and specialists who want to deliver gold-standard treatments that return patients to health.

Including the HyFlex EDM file sequence – so flexible that only one or two files are often needed to complete shaping – COLTENE's endo portfolio is designed for reliable, high value and predictable outcomes. Comfort and efficiency combine with COLTENE! Why buy in stock you don't need, when everything has been designed for optimal results. As well as endodontics, COLTENE covers restorative and general practice. Also known for its exceptional service and customer care, join the Rewards programme to get even more out of products.

For more on COLTENE Rewards, visit www.rewards.coltene.com, email rewards.uk@coltene.com or call 0800 254 5115.

Glasgow dental business changes hands for the first time since 1998

Specialist business property adviser, Christie & Co, has announced the sale of Annesland Cross Dental located in Glasgow's West End.

Established over 70 years ago, Annesland Cross Dental is a successful, mixed-income dental practice with one fully equipped surgery and circa 3,300 registered patients.

The practice has been owned by Jason Fisher since 1998 and was brought to market to allow him to retire. Following a confidential sales process with Joel Mannix at Christie & Co, it has been purchased by Alexander Jeffcoate who owns one other practice in Glasgow.

Jason Fisher, former owner of Annesland Cross Dental said: 'I was a single-handed practitioner for 26 years and decided that it was time to take things easier. Joel found me the perfect buyer who has already been a huge hit with the patients and the staff. He already has ambitious plans for the practice, and I am certain he will make a huge success of it.'

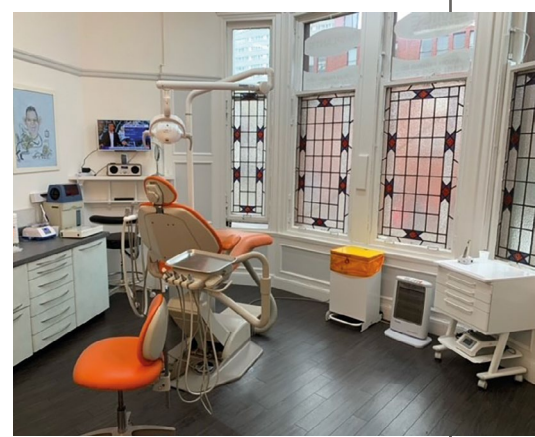

Alexander Jeffcoate, new owner of Annesland Cross Dental, commented: 'I bought my first dental practice, Dalmuir Dental Care now Vanguard Dental Dalmuir, in September 2022 and have since enjoyed the challenge of running the business alongside working as a dentist.

'I decided to buy Annesland Cross Dental as it presented a great opportunity to acquire a busy dental practice in a great location. The practice is longstanding and has a good reputation locally with many of the patients. The practice currently has one surgery, however there is space to increase

the number of surgeries within the existing building footprint. I plan to renovate the practice to create a clean and modern clinical practice and provide a comfortable and relaxing environment for our patients. The increased surgery numbers and renovation will allow the practice to register more NHS patients and continue to deliver the highest standard of care.'

Joel Mannix, Associate Director – Dental at Christie & Co, added: 'Following 26 years of successful ownership, it was a hard decision for Jason to bring Annesland Cross Dental to market. However, through a meticulous, confidential sales process, we identified the perfect buyer in Alexander, and I'm sure that he will take the practice to further success and continue the good reputation that Jason has established over the decades.

'We continue to sell the majority of practices in Scotland to independent buyers, and this deal is no exception. We expect this trend to carry on well into 2024.'

A bespoke experience

The experience team at Clark Dental has been working alongside dental practices for over 49 years, so they know what makes an attractive practice.

Whether you're a single chair surgery, a new build, or are looking to reflect your branding in your environment, Clark Dental can help. By offering a bespoke 3D visualisation service, you are able to see your dream practice. This life-like design

allows you to make any alterations you'd like, to build the perfect space with the help of the team's innovative ideas. Choose stylish and durable cabinetry options from brands such as Edarredo and Apex, to create a comfortable environment which reflects your needs.
