Can you envisage your future practice?

Visit Carestream Dental and the Swissmeda team at the British Dental Conference & Dentistry Show in Birmingham at stand **J40**.

Envision your future practice with the CS 8200 3D Family of CBCT systems. For those starting their CBCT journey, get access to more confident diagnoses, improved patient care and the possibility of growing your business with the NEW CS 8200 3D Access. For an optimised workflow, extended fields of view and scout view, the CS 8200 3D Neo Edition allows you to transform your care without compromise.

Attendees will also be able to see how artificial intelligence has already made an impact on dentistry with the exceptional AI Insights tool. This has the ability to automatically analyse panoramic x-ray images with immediate assessments on the spot, now including new detections such as Mandibular Canal Proximity and Perio Pro Mode.

Additionally, our Swissmeda team will guide you through the implant workflow from acquiring your imaging data to implant planning, surgical guide design and finishing with fully guided surgery.

Visit Carestream Dental at the BDCDS in May to find out more about leading imaging solutions in dentistry. For more information on Carestream Dental visit www.carestreamdental.co.uk.

All are welcome!

Would you like to find out more about the British Endodontic Society (BES)? Visit us at the British Dental Conference & Dentistry Show at the NEC Birmingham!

The BES is a specialty society, not a society for specialists. As such, we welcome anyone with an interest in endodontics to join us and become a member. At whatever stage of your professional career, the BES is able to support you. We hold multiple meetings throughout the year, presenting great opportunities for professionals to

come together to learn, network, and socialise. Plus, if you're new to endodontics, our Early Careers Group is there to help further your education and training.

For more information about the BES, or to join, visit stand **G94** at the show, visit the website www.britishendodonticsociety.org.uk or call 07762945847.

Earn top rewards

When you buy COLTENE brands, you don't just upgrade your dentistry, you can also earn Rewards for you, your staff and your practice. Visit COLTENE on stand **E40** at the British Dental Conference & Dentistry Show, NEC Birmingham, and learn about the new loyalty programme.

You'll also see ongoing demonstrations of the new CanalPro X-Move Endo

Motor with integrated Apex Locator, and the innovative HyFlex file system, with endodontist Dhiraj Arora.

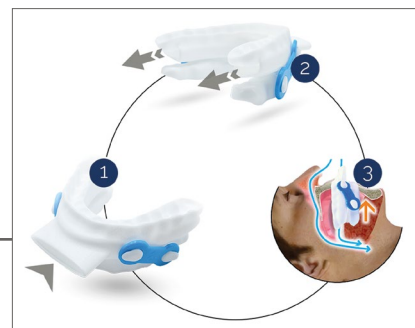

Come and meet the team, catch up on what's new, benefit from current promotions and learn how COLTENE can help you boost the success of your practice.

For more information contact info.uk@coltene.com or call 0800 254 5115.

Discover the alternative OSA treatment

Discover the O2Vent on stand **H8** at the British Dental Conference & Dentistry Show at the NEC Birmingham.

Newly available in the UK, and the patient choice in Canada and Australia, O2Vent is a fantastic alternative to CPAP machines for the treatment of obstructive sleep apnoea (OSA).

OSA patients are routinely prescribed CPAP, however, there is now another way which offers a better night's sleep. O2Vent is customised to fit each patient. This helps to deliver a comfortable and discreet alternative. If there's a blockage, the device draws in air through the device, allowing it to reach the back of the throat. Plus, the device stabilises the lower jaw, brings the tongue forward, and opens the airway.

If you're looking to offer your patients an alternative treatment for OSA, visit the O2Vent stand H8, visit: <https://openairway.com/>, call 0800 8611828 or email infoUK@openairways.com.
