EBOOKS FROM YOUR LIBRARY SERVICE

Compiled by **Pete Folly**, Library Manager

Your BDA Library service is available at the touch of a button - you don't need to visit us to make use of our resources, which include ejournals, document supply service, evidence-based literature searches, and over 640 eBooks.

MASTER DENTISTRY VOLUME 2: RESTORATIVE DENTISTRY, PAEDIATRIC DENTISTRY AND ORTHODONTICS (4th edition)

Edited by Giles McCracken
2021; Elsevier
432 pages
eISBN 9780702081453

This popular book is now in its fourth edition and continues to provide a comprehensive overview of core elements of restorative adult and paediatric dentistry. It includes conscious sedation, anxiety management and how law, ethics and professionalism interface with the delivery of dentistry. The book has been fully updated to include developments in restorative

dentistry, the latest materials and new technology, and is ideal for undergraduate students, vocational trainees and those preparing for post-graduate examinations.

Master Dentistry is designed as a revision guide for dental students and presents the key elements of the curriculum in an easy-to-digest format. The book is fully illustrated throughout and is supported by extensive self-assessment questions. The information is presented in a style which facilitates easy recall for examination purposes and a ready understanding of the subject.

HANDBOOK OF PEDIATRIC DENTISTRY (5th edition)

Angus Cameron
2021; Elsevier
592 pages
eISBN 9780702079863

Suitable for students and practitioners alike, the Handbook of Paediatric Dentistry is a concise, practical and highly illustrated guide to the day-to-day management of child dental patients.

This latest edition equips the reader with necessary skills and knowledge to provide truly integrative patient care going beyond just the technical skills needed to treat children's dental disorders. It covers assessment of a child's health and development, their oral health, the newest clinical interventions, and concepts of dental disease initiation and progression. It guides the reader through the management and communication

skills needed to deal with children, and how to support their overall health behaviours. Written by renowned authors Angus Cameron and Richard P Widmer, this text is an essential companion for all practitioners who treat children, including undergraduate dental students, general dental practitioners, specialist pediatric dentists, orthodontists and pediatricians.
