

## FIGHT TOOTH MONSTERS WHILE BRUSHING

The first sign of a healthy mouth is a bright smile. To make sure children have a set of pearly whites to match, the PlayBrush Smart has been developed.

Simply attach the Smart Playbrush cap to the base of any manual toothbrush, connect to your iOS or Android device via Bluetooth, and children can then choose to fight tooth monsters, paint pictures or control planes

in just a matter of minutes. From each session Playbrush measures speed, position of the brush head and brushing time, even evaluating children's brushing with a personalised audio guide for children and with statistics for parents. So while your child is treated to the games, parents have the reassurance that the PlayBrush is working its magic.

The PlayBrush Smart has been developed to assist children aged 3-12 years old. Each

PlayBrush attachment is rechargeable (no batteries, two weeks' battery life) and waterproof. Users have access to two free games (Utoothia & Utoothia Paint). However, you also have the opportunity to upgrade to have more games via a small games subscription available for iOS, Android and Kindle devices.

The Playbrush Smart is available to buy online for £24.99 from <https://order.playbrush.com/>.

## GENUINE VALUATION OF YOUR DENTAL SCRAP

Dental professionals quite rightly have concerns about disposing of their valuable scrap and one firm, MTD Metallurgical Co, offers dental professionals the ultimate safeguard of having a guaranteed valuation before deciding whether to sell their materials or receive them back in exactly the same condition in which MTD received them.

MTD Metallurgical Co is so confident about the amounts it pays out to dental practices that they are offering their unique and genuine valuation service without charge.

While MTD Metallurgical Co use the latest technologies they always remain contactable; if a dentist has particular requirements or simply wants information not covered on the website the company is just a phone call away. The values of both gold and palladium have risen steeply and the prices MTD pay for gold and for palladium bonding alloy dental scrap crowns, inlays, bridges, posts, implant components and braces containing either or both of these metals have also steeply risen *pro-rata*.

MTD only deal directly with dental professionals so there are no reps or agents' costs and commissions deducted and MTD have no connection with any other company.

## ONLINE APPOINTMENT BOOKING 24/7

Did you know that online appointment booking is available for Dentally, which you can use to let your patients book 24/7 from your own website?

The portal has been specifically designed for Dentally; it allows patients to view and book appointments. Dentally wants your dental practice to thrive; giving patients a way to manage their appointments is a small but essential part.

Today consumers can do pretty much everything online, whether it is to book a table for a restaurant, reserve cinema tickets, order a takeaway food delivery or book a taxi quickly - they easily can, anytime and anywhere. Why should booking appointments for dental treatment be any different? Introducing a feature on your website that is a secure patient portal, where a patient can view, book, reschedule or cancel appointments 24 hours a day, seven

days per week can only be beneficial to your dental practice.

It not only saves your patients time, thus helping you develop and maintain stronger patient relationships, but it can also save valuable surgery time by reducing missed appointments and it will free up time for your reception team.

The online appointment booking app for Dentally lets your patients book an appointment from your own practice website. A custom booking page can be shared or just add a 'Book' button to your site, ideal for existing patients and to attract new ones.

If you would like to learn more about online appointment booking and how you can add it to your website with a direct link to Dentally, then simply email [hello@dentally.co](mailto:hello@dentally.co) or visit: <https://dentally.co/integrations/online-appointments>.
