MAXIMISE WORKFLOW EFFICIENCY AND SAFETY IN YOUR PRACTICE

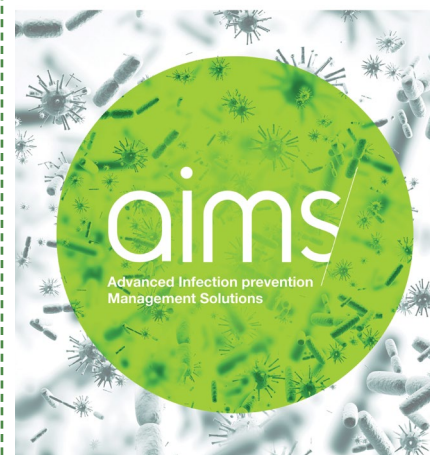

In the highly specialised field of dental handpieces and instrumentation, W&H's expertise is second to none. Experts know what works and what doesn't and that's what makes their advice so valuable.

W&H AIMS (Advanced Infection Management Solutions) is a series of how-to video guides aimed at maximising workflow efficiency and safety for every dental practice. It takes you through the hygiene workflow, detailing how infection risks arise and why each step of the decontamination reprocessing process – in conjunction with the appropriate personal protective equipment – are key to breaking the chain of infection.

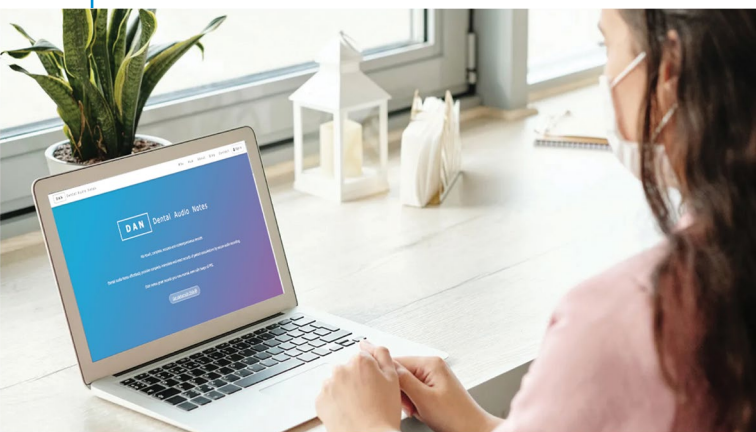

W&H AIMS also establishes sound protocols to protect you, your patients and the dental team in their day-to-day work.

Visit the website today to see how W&H AIMS can inform your workflow!

MAKE RECORD TAKING EFFORTLESS

happened. It optimises the consent, security, privacy and storage of data for the full 11 years required, providing total peace of mind. The software also allows recordings to be safely shared with patients to enhance their engagement too.

In addition, it is simple to integrate

Dental Audio Notes (DAN) makes the documentation of complete, accurate and contemporaneous clinical notes effortless.

The innovative software provides an audio recording of consultations, so both you and your patient are protected by a genuine account of everything that actually

within your existing systems and can be set up for fast and efficient functionality.

Clinical record keeping is changing – be part of the revolution.

For more information about Dental Audio Notes (DAN), or to arrange a free demo, visit <https://dentalaudionotes.com/>.

HIGH-RESOLUTION IMAGES IN SECONDS

From Carestream Dental, the CS 7200 Neo Edition is an ultra-compact imaging plate

system which is designed to meet your practice's everyday needs. Using a fast and simple workflow, the CS 7200 Neo Edition produces high-resolution images and can be used chairside for a seamless workflow.

Producing high-quality images in just eight seconds, the CS 7200 Neo Edition is ideal for busy practices who require sharp, detailed images to make a confident diagnosis.

For more information, contact the team at Carestream Dental.
