

Dental products and services

Please send product news information and images to Kate Quinlan at k.quinlan@nature.com. Product news is provided as a service to readers using text and images from the manufacturer, supplier or distributor and does not imply endorsement by the BDI. Normal and prudent research should be exercised before purchase or use of any product mentioned.

Meet demand for implants, via quality training

Learning to provide implant procedures will allow you to offer this high-demand treatment at your practice, without having to refer out.

To develop the skills needed to place implants correctly, safely and effectively, the One to One Dental Education Implant Programme is led by Dr Fazeela Khan-Osborne, a highly experienced implant dentist, instructor, lecturer and leader in the field.

Content includes:

- Treatment planning
- Surgical execution

- Restorative procedures
- Digital workflows.

No matter your previous knowledge, the One to One Dental Education Implant Programme offers exceptional training and mentorship.

Classes are small and adapted to be COVID-safe.

To reserve your place or to find out more, visit <https://www.implantcourse.co.uk/our-courses/project-one-7kpfx> or call 020 7486 0000.

A sure thing

There is one, and only one sure-fire investment you can make to thrive in this world – invest in yourself.

Particularly in challenging circumstances, investing in your future is the smartest way you can use your time. Ucer Education's Postgraduate Certificate (PGCert) in Implant Dentistry (EduQual Level 7) celebrates its 25th anniversary this year, having built a rock-solid reputation under Specialist Oral Surgeon, Professor Cemal Ucer.

The course gives graduates the skills and hands-on training needed to confidently and safely place and restore dental implants in a wide range of patients. It also utilises the cutting-edge facilities of the ICE Postgraduate Dental Institute in Manchester for a superior learning experience.

For more information on the PG Cert in Implant Dentistry from Ucer Education – supported by Geistlich, Megagen, Neoss, TRI Implants and General Medical – visit www.ucer.education or call Prof Ucer on 07767 645331. Email ucer@oral-implants.com.
