

Think about your future

Looking to break into implant dentistry with training and support you can trust? Ucer Education's Postgraduate Certificate (PGCert) in Implant Dentistry (EduQual Level 7) is a highly established course that offers training in the latest, evidence-based techniques.

The multi-system programme is delivered by an esteemed faculty, led by Specialist Oral Surgeon, Professor Cemal Ucer. You will gain an outstanding foundation in all aspects

of modern implant dentistry, from the basics of patient assessment and treatment planning to multiple advanced surgical techniques. Training covers both theory and practical aspects and assessments, ensuring that you have the knowledge and confidence you need to take a successful step into the world of dental implants.

For more information on the PG Cert in Implant Dentistry from Ucer Education – supported by Geistlich, Megagen, Neoss, TRI Implants and General Medical – visit www.ucer.education or call Prof Ucer on 07767 645331. Email ucer@oral-implants.com.

Accredited dental implant education, for your best career

For accredited postgraduate training in implant dentistry, The One to One Implant Education's Postgraduate Diploma in Implant Dentistry is the only choice.

Under the guidance of Course Lead and renowned implant dentist, Dr Fazeela Khan-Osborne, and with substantial portion of the teaching time dedicated to live surgery, the programme has a tiered peer mentor system, with every delegate receiving a tutor who has also completed the course.

Training covers treatment planning, soft tissue management, the laboratory/clinician interface, guided bone regeneration and more.

With the 2021 Postgraduate Diploma sold out, book for 2022 to avoid disappointment!

To reserve your place or to find out more, visit <https://121implanteducation.co.uk> or call 020 7486 0000.

Key to conservative caries management

Many older patients would rather keep their own teeth than be fitted with a denture.

If they don't think that modern restorative dentistry is for them, perhaps they don't know that it is affordable, comfortable, quick and a world away from 'drill and fill'.

For restoring carious defects in a single appointment, choose COLTENE's BRILLIANT COMPONEER, a veneering system comprised of prefabricated veneer shells. The restoration can be adjusted in the chair if required and it is highly aesthetic.

To find out more about BRILLIANT COMPONEER and other products in its restorative range, visit the website or contact the team.

For more on COLTENE, visit www.coltene.com, email info.uk@coltene.com or call 0800 254 5115.
