

## Jaw motion rehabilitation

The OraStretch Press distributed by Total TMJ is a jaw motion rehabilitation system that patients can use at home.

It provides an anatomically correct stretch – even those with severely extended over or under bites, or those with missing teeth and dentures can use the OraStretch Press comfortably.

Other features:

- Easy to hold handles
- Small and light
- Improved fit – standard, extended and paediatric versions available.

The OraStretch Press can reduce swelling and pain; for example, post-oral surgery or for treating trismus. Using different protocols, depending on the scenario, the patient will feel a light stretch, helping to increase bite strength.

For details, contact the distributor today.

For more details about Total TMJ and the products available, call 01202 313701.

## Gold standard training in non-invasive injectable cosmetic procedures

Derma Medical, a multinational training provider at the forefront of non-surgical aesthetic treatments, equips medical professionals with recognised qualifications in non-invasive injectable cosmetic procedures such as Botox and dermal fillers.

Derma Medical has UK-wide training covering London, Birmingham, Manchester and Edinburgh, as well as international training academies in Sydney, Brisbane, Melbourne, Perth, Stockholm and Dubai, which attract delegates from around the world.

With courses to suit all levels, from foundation to the most experienced practitioners, the company has always been committed to the gold standard of training in line with the latest guidelines for delivering non-surgical cosmetic interventions. This approach has seen its courses endorsed and regulated by leading organisations such as the British College of Aesthetic Medicine (BCAM) and The Office of Qualifications and Examinations Regulation (Ofqual).

The Company's mission is to raise the standards of the aesthetic industry by improving patient safety and the lives of hardworking medical professionals by providing a development pathway to grow their careers and improve their livelihoods. In addition, the work of Derma Medical and its delegates positively affects people's confidence, helping them feel better about themselves.

Derma Medical was founded by Dr Zack Ally and Dr Sanah Qasem in 2015 and has taught thousands of delegates on aesthetic medicine – an industry where science meets art. They were one of the first training providers in the UK to offer the accredited level 7 qualification in cosmetic injectables, which Ofqual regulates.
