## Treat limited jaw opening in patients

Total TMJ is delighted to present the OraStretch Maximum Interincisal Opening (MIO) scales, which make it quick and easy to measure mouth opening for improved management of temporomandibular joint (TMJ) disorders.

The OraStretch MIO includes a variety of rulers to enable measurement of jaw rotation and mouth opening, as well as a trismus guide and a log area for recording patient information. It's quick and easy to use, disposable and cost-effective.

Plus, it's ideal when used alongside the OraStretch Press Rehab System – which can help patients improve their jaw mobility and mouth opening by 1–2 mm a week with continued use.

To see how the OraStretch MIO could improve your management of patients with limited jaw mobility and function, contact distributor Total TMJ today!

For more details about Total TMJ and the products available, call 01202 313701.

## A brand new, top tier partnership

Working Feedback and Software of Excellence are delighted to announce a brand new, top tier partnership, giving UK dental practices an influential, automated solution in asking for and collecting patient feedback.

Software of Excellence, with its market-leading dental practice management software, is now offering this fully integrated service on behalf of Working Feedback through their product portfolio.

This builds on their aim of simplifying each aspect of dental practice management by delivering software that connects with each other, shares data and automates more tasks – helping each member of the dental team work smarter and more efficiently.

Working Feedback collects, moderates and shares feedback through easy-to-use software and is an approved review partner for NHS Digital and the CQC.

In addition, the Working Feedback package and processes are now fully

integrated and automated with Software of Excellence. This means the system is good to go!

Whether you are looking to attract new patients, get more Google reviews, understand your dental practice better, have unique content on your social media platforms, manage your online reputation or sell more to your existing patients, Working Feedback can help do all that and more.

Through this top tier partnership with Software of Excellence, Working Feedback can reach new heights and explore new avenues, providing dental practices with something incredibly valuable in this day and age – the information and insight to use feedback to your advantage.

If you would like further information on how Working Feedback and Software of Excellence can help you handle feedback and use it in a positive manner, to the benefit of your practice, your team and your patients, simply contact:

Philip Molden, Operations Director for Working Feedback, email [philip@workingfeedback.co.uk](mailto:philip@workingfeedback.co.uk) or call 0800 043 2100; or your usual contact at Software of Excellence, email [sdr@soeuk.com](mailto:sdr@soeuk.com) or call 01634 266 802.
