

Learn cutting-edge implantology skills

The Postgraduate Certificate (PGCert) in Implant Dentistry (EduQual Level 7) supplied by Ucer Education is a fantastic chance for professionals to learn the most up-to-date skills in the field.

Now in its 25th year of being taught, this hands-on, 12-day course is taught over 12 months, giving clinicians the chance to hone their skills over time and get to grips with the knowledge they need to excel in dental implantology. The course programme includes lectures from leading professionals, hands-on practical sessions, seminars, tutorials and more. Plus, delegates will also undertake literature reviews to familiarise themselves with the surgical and restorative principles of dental implantology and be supported by expert supervision.

Perfect for GDPs looking to enter the world of dental implantology, this course is ideal for newly qualified and experienced individuals alike.

Experience the finest products all in one box

The Experience Demo Cube, from 3M Oral Care, allows clinicians to enjoy a selection of the very best products from our portfolio, all in one box.

Included in the 3M Experience Demo Cube are Filtek Universal Restorative, Filtek One Bulk Fill Restorative and Scotchbond Universal Adhesive by 3M Oral Care. Clinicians will also receive a tooth model and a link to virtual, hands-on training videos, so not only can they experience some of 3M's most popular products but can also ensure they're utilising them to the fullest.

The 3M Experience Demo Cube provides an opportunity for clinicians to test 3M Oral Care products in a convenient, hassle-free way.

You can order your FREE 3M Experience Demo Cube here: https://engage.3m.com/gb_direct_demo_box_1?utm_term=hcbg-ocsd-den-en_gb-lead-promoting_box_integrated-chanpart-web-dental_directory-demo-na-aug21-44906.

For more information, call 08705 360 036 or visit www.3M.co.uk/Dental.

3M, Filtek and Scotchbond are trademarks of the 3M Company.

Enter the world of dental sleep medicine

In the modern world, more people than ever before are struggling to have a good night's sleep.

The far-reaching consequences of a lack of sleep can be life-changing for patients. As such, IAS Academy has developed a Dental Sleep Medicine course with Dr Paul Reaney in order to give clinicians the skills and knowledge they need to help patients achieve high-quality sleep.

The course covers how to implement the latest NICE guidelines on sleep-disordered breathing, as well as methods on how to treat patients suffering from conditions that affect sleep, such as obstructive sleep apnoea. Plus, it explores the full digital workflow and how to effectively assess patients – steps that can easily transform their quality of life.

Enter the world of sleep medicine today by contacting the team.

For more information on upcoming IAS Academy training courses, visit www.iasortho.com or call 01932 336470 (Press 1).

Well worth a visit

Discover Henry Schein Dental's digital showstoppers at the Digital and Implant Dentistry Show this February! Henry Schein Dental looks forward to demonstrating key pieces from their digital equipment portfolio at the Digital and Implant Dentistry Show, held at the Novotel London West between 09:00–16:00 on Saturday, 25 February 2023.

Visitors will be able to speak with Henry Schein Dental's knowledgeable team and see key digital equipment in action, including the SprintRay Pro 95 S 3D Printer, and the

3Shape TRIOS 5 intraoral scanner. SprintRay products are built to work together. From design to print to post-processing, SprintRay helps to improve 3D printing quality and efficiency. The SprintRay Pro 95 S 3D Printer, the SprintRay Pro Cure and the SprintRay Pro Wash/Dry will all be on the stand for visitors to explore.

3Shape's popular TRIOS intraoral scanners will also be on display, most notably the NEW TRIOS 5 smaller and lighter wireless intraoral scanner, which offers greater hygiene, versatility and freedom of movement to digital impression taking.

The Henry Schein Dental team will be joined by a representative from BioHorizons Camlog, the implantology specialists who deliver implant systems, digital workflows, and innovative regenerative solutions.

Visitors will find Henry Schein Dental's Stand C4 well worth a visit! Find Henry Schein at Stand C4 at the Digital and Implant Dentistry Show at Novotel London West, Chablis Suite. For more information and to register visit <https://dentistry.co.uk/shows/digital-implant-dentistry-show/>.
