

# Dental products and services

Please send product news information and images to Kate Quinlan at [k.quinlan@nature.com](mailto:k.quinlan@nature.com). Product news is provided as a service to readers using text and images from the manufacturer, supplier or distributor and does not imply endorsement by the BDI. Normal and prudent research should be exercised before purchase or use of any product mentioned.

## Re-claim your working day

Are you finding it difficult to balance comprehensive note taking and spending time with your patients? Kiroku, the digital note taking platform, can help.

Kiroku is the innovative solution for clinical note taking, allowing you to spend more time with your patients and less time on administrative tasks, while keeping complete and accurate clinical notes for all of your patients. Use dynamic templates with Kiroku, which make it easier to include all the relevant information – customisable for your needs.

On average, dentists spend 25% of their day writing notes – time which could be better spent elsewhere. With Kiroku, you can expect to take comprehensive notes 60% faster, with the security that nothing has been missed out.

If you're ready to re-claim your working day, and create accurate and complete notes in no time, try Kiroku.

To find out more about Kiroku, or to start your free trial, visit <https://trykiroku.com/>.

## Industry-leading practice design service

Clark Dental provides an industry-leading practice design service, aiding you during your renovation or refurbishment projects.

Using state-of-the-art 2D and 3D computer-aided design technology, the team give you superior flexibility in the design stages, so you can take advantage of your available space and create your desired end result. This unique technology grants you the ability to visualise your plans for the practice, providing confidence to make these plans a reality. Not only can you select your desired décor and colour schemes, but industry regulations and standards are also taken into account, providing much-needed peace of mind.

With Clark Dental's unrivalled customer service and industry expertise, the stress of revamping your dental practice is reduced, so you can enjoy the process of transforming your space.

If you're looking to make a few changes or completely overhaul your practice, get in touch with the experts at Clark Dental today.

For more information call Clark Dental on 01268 733 146, email [info@clarkdental.co.uk](mailto:info@clarkdental.co.uk) or visit [www.clarkdental.co.uk](http://www.clarkdental.co.uk).

## Why wait? Straighten and whiten together

For patients already enjoying the benefits of clear aligner treatment, they can now have the additional benefit of whitening and brightening at the same time – with no additional wear time.

Building on the success of SDI Pola's award-winning at-home whitening range, new Pola for Aligners incorporates Pola Night 10% carbamide peroxide gel, carefully selected for use with any aligner system, to deliver exceptional results without the chair time, and with minimal sensitivity.

Pola for Aligners offers:

- Superb patient comfort with a formulation of potassium nitrate and fluoride to reduce sensitivity while making it ideal for long-term use
- High viscosity gel that stays securely in aligner trays
- No mess with just a small amount of gel required
- Customised use from two hours a day and safe for overnight wear.

Even if patients have attachments on their orthodontic appliances, or use straight edged or scalloped aligners, this does not interfere with the whitening process.

Pola for Aligners can be prescribed as a one-off treatment during orthodontic treatment or customised for extended periods of use for simple, safe and effective whitening results.

For more information about Pola for Aligners visit <https://sdipola.co.uk/products/pola-for-aligners/>. Take advantage of the excellent deals and special offers on the entire SDI Pola Advanced Tooth Whitening range at <https://sdipola.co.uk/offers/>.
