

Take control

For speed, precision and dependability, choose the Impregum Super Quick polyether impression material from 3M Oral Care.

Combining the reliability of a polyether with the speed of a VPS, the Impregum Super Quick polyether impression material from 3M has a working time of 45 seconds, and sets in just two minutes. As such, you can achieve faster impressions in single unit crown, dental implant and inlay/onlay cases.

Alongside the short time spent in the mouth, the improved, minty taste helps to increase patient comfort.

Precise impressions are the key to successful treatment. With the Impregum Super Quick polyether impression material from 3M you can achieve exceptional results, every time. Get in touch to find out more.

Durable, high-quality cabinetry

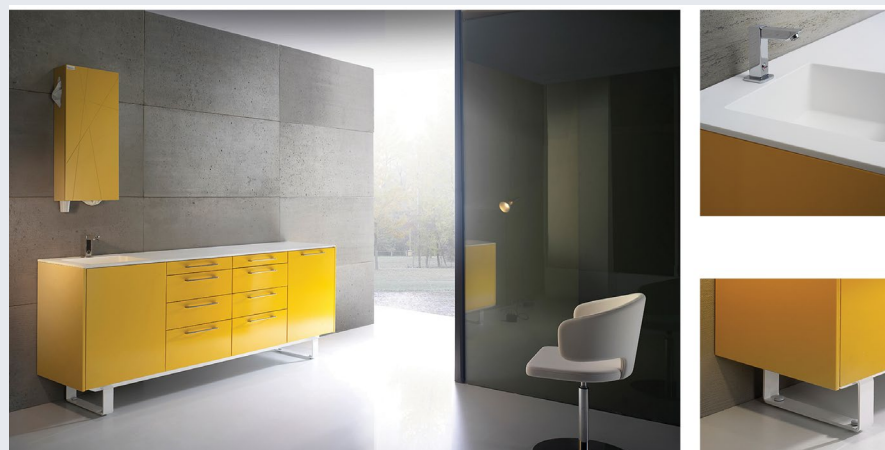

Why is cabinetry an important part of a dental practice? Not only can the aesthetics be enhanced, but with optimal storage and improved ergonomics, the workflow of the practice can also be streamlined.

For over 47 years, Clark Dental has been providing clinicians with state-of-the-art systems and solutions, such as their range of dental cabinetry. Their offerings include the Apex cabinets, which provide traditional styles with all the modern conveniences and functionality a clinician could need.

The Edarredo cabinets offer several different ranges, all of which boast impressive durability and design, suitable for any dental practice's aesthetic and needs.

Clark Dental is an expert in dental practice remodelling or refreshing, with stunning cabinets available for all – get in touch with the team to find out more today.

If you'd like to find out more about Clark Dental's solutions, call the team on 01268 733 146, email info@clarkdental.co.uk or visit www.clarkdental.co.uk.

Perfect for the whole family

As you know, oral health bears the brunt of many lifestyle habits. Therefore, patients need oral hygiene products that will help keep their oral cavity fresh and healthy.

The Waterpik Water Flosser, backed by over 60 years of innovation, is the perfect adjunct to your patients' and their families' oral health routines. Studies demonstrate that the solution is twice as effective as string floss for reducing gingival bleeding,¹ and can remove 99.9% of plaque after a three-second application.²

Ideal for kids aged six years and upwards (with parental supervision), and for a range of individuals with certain

dental needs, you can recommend the Waterpik Water Flosser to your patients with confidence.

Get in touch today!

For more information on Waterpik Water Flosser products visit www.waterpik.co.uk. Waterpik products are available from Amazon, Costco UK, Argos, Boots, Superdrug and Tesco online and in stores across the UK and Ireland.
