Biomimetic restorative dentistry conference

On 4–5 November 2023, the Bio-Emulation conference will be held at the Inter Expo Center in Sofia, Bulgaria. An exquisite line-up of 11 international dentists and dental technicians from seven different countries (France, Greece, Spain, Belgium, Switzerland, Germany and Taiwan) will present various topics in lectures and nine workshops centred around the concepts of Biomimetic Restorative Dentistry that involve many products and workflows from GC as well.

The Bio-Emulation Group was initiated in 2008 as a think-tank, to dismiss dogmas in dentistry and promote minimal intervention. Today, it is a growing community of highly skilled clinicians and technicians who are constantly developing new methods to preserve and match the natural tooth/teeth. That is what the word bio-emulation stems from.

Therefore, it is a unique opportunity to get a thorough overview of the entire bio-emulation way of thinking and techniques.

As main sponsor of this event, GC will be present.

For more information and registration, visit www.bioemulation-symposium.com.

A seamless 2D/3D imaging workflow

Discover the new generation of CS Imaging version 8 from Carestream Dental. The platform provides access to all of your 2D and 3D images, as well as any CAD/CAM data. This enables you to manage your digital workflow more effectively.

This seamless 2D/3D imaging workflow helps you to save time and work more effectively, boost case acceptance, enhance diagnostic capabilities, and facilitate collaboration with your treatment team.

With all images at your fingertips on one single imaging platform,

you are able to obtain an instant overview of patient history and share images with ease.

Full-day bone augmentation and implant surgery meeting

Trycare have invited some of the world's leading authorities on guided bone regeneration and Adin implants to present their findings at a full day 'Bone Augmentation and Implant Surgery Conference' on Friday 20 October 2023. Every attending Delegate will receive their choice of a free of charge 1cc OsteoBiol mp3 or 0.5cc OsteoBiol GTO syringe worth £105 plus vat or more after the event.

The speakers are world renowned Patrick Palacci presenting 'Post-COVID implantology and a new approach to easier, quicker outstanding outcomes', Luigi Canullo presenting 'Computer guided planning for clinical success in the aesthetic zone and crestal approach for sinus lifting', and the UK's own Carl Horton and Will Murphy presenting 'Immediate full arch loading pathways to success!'

Delivering six hours of truly enhanced CPD from top class speakers and an exhibition supported by leading manufacturers it offers exceptional value for just £250 plus vat; early bird before 1 June 2023 is £195 plus vat. Places will be limited and demand high so early booking is essential to guarantee your place.

Trycare's 'Bone Augmentation and Implant Surgery Conference' will be held in the Royal College of Physicians' state-of-the-art Conference Centre with panoramic views over the whole city of Liverpool.

Why not make a weekend of it with the opportunity to visit two cathedrals, the historic Albert Docks, Tate Liverpool, a guided tour of Anfield, enjoy one of the many Peaky Blinders or Beatles Guided Tours, enjoy a ferry trip across the Mersey, enjoy some fine wine and dining, dance the night away, top class shopping in Liverpool One, or venture further afield to see the Blackpool Illuminations, Lake District or North Wales. There's something for everyone!
