Register now for the World Endodontic Congress 2024

Don't forget to register for the World Endodontic Congress (WEC) of the International Federation of Endodontic Associations (IFEA).

Organised by the British Endodontic Society (BES) in 2024, the event encourages endodontic clinicians from around the world to meet and discuss progress in the field, and presents an opportunity for endodontists to collaborate to find solutions and inspire development.

Expert speakers from around the world, including Daniel Černý, Elisabetta Cotti, Adham Abdel Azim, Phil Tomson, and Paul Lambrechts, are set to meet in Glasgow, from 11–14 September 2024, to present sessions on cutting-edge endodontic techniques, delegates can expect an enriching programme.

For more information, visit the website. Register today for IFEA WEC 2024 at <https://www.ifea2024glasgow.com/registration>.

For all your composites

With over 28,000 individual products in stock, Trycare not only supply all their Surgical and General Practice specialist products from Adin, Centrix, EVE, Tecnos OsteoBiol, Tokuyama and many more market leading manufacturers, but everything else you need too. This includes everything available from Acteon to Zhermack, including composites like Kulzer's Charisma. You can get it all from Trycare!

For further information contact your local Trycare representative, call 01274 885544 or visit www.trycare.co.uk.

Endodontic irrigation: Science or marketing?

Sergio Kuttler will be presenting at the upcoming British Endodontic Society (BES) Spring Scientific Meeting on 16 March 2024. He shares an insight into his topic, and what attendees can expect:

'At the Spring Scientific Meeting, I will have the honour of sharing my topic "Endodontic irrigation: Science or marketing?" with you. We have been using Sodium hypochlorite (NaOCl) for the past 104 years and I wonder "what's wrong with our specialty?". This is because, since the introduction of NiTi mechanised root canal therapy in early 1991 until today there are more than 400 mechanised systems sold worldwide, and we still rely on our irrigation protocols during treatment primarily on NaOCl.

'During my presentation, I will cover the chronology of root canal irrigation, the various irrigation solutions used in root canal procedures, the essential functions of root canal irrigation, variables encountered clinically that may affect root canal irrigation, and different types of root canal irrigation. Additionally, I will discern between marketing and science in the commercial offering available for root canal irrigation. Also, I will try to elicit some controversies during my presentation.

'I cordially invite you to come and attend the British Endodontic Society Spring Scientific Meeting. See you there!'

Register today for the Spring Scientific Meeting at https://britishendodonticsociety.org.uk/events/23/spring_scientific_meeting_2024.
