Correction to: *Cancer Gene Therapy* <https://doi.org/10.1038/s41417-020-00239-8>, published online 13 October 2020

Following publication of the original article [1], Figure 4C and Figure 4E or Figure 4D and Figure 4F were identical to one another. We carefully checked our manuscript and raw data and lab records. We are confident about the validity and strength of the conclusion made in our manuscript. The results corresponding to Figure 4C–F were saved in the same folder although separately.

However, when the figures were re-arranged in the Photoshop Figure 4, we incautiously dragged the identical figures into Photoshop Figure 4. Moreover, we did not check the submission or proof carefully.

We had provided the raw data and the amended figure. The corrected figure is given below. The correction does not have any effect on the results or conclusions of the paper. The original article has been updated.
