Correction to: *Cancer Gene Therapy* <https://doi.org/10.1038/s41417-020-00247-8>, published online 27 October 2020

After publication the author reviewed the original experimental results and found that there are errors in the records and statistical results of the nude mouse transplanted tumor experiment, due to the original results being stored not been properly analysed. Revised Fig. 6 is shown below.

Although there are errors between the previous experimental records and statistical results, it does not affect the overall conclusion, and the overall result description is consistent.

The original article has been corrected.
