Correction to: *Cell Death Discovery* (2018)

<https://doi.org/10.1038/s41420-018-0114-x>
published online 22 October 2018

The Article contains an error in Fig. 2a. Two images in Fig. 2a (control group and ATX-treated group) were

inadvertently duplicated. The control group and ATX-treated group both showed no significant cell apoptosis, the experimenter misunderstood that the same image should be used. (Note: A similar error by the same experimenter was also found in Fig. 2C in another publication “Natural borneol is a novel chemosensitizer that enhances temozolomide-induced anticancer efficiency against human glioma by triggering mitochondrial dysfunction and reactive oxide species-mediated oxidative damage”, <https://doi.org/10.2147/OTT.S174498>.)

The correct Fig. 2a appears below
