Correction to: *Cellular and Molecular Immunology* <https://doi.org/10.1038/cmi.2015.62>.

In this article, published online on 31 August 2015, there was an unintended error during image processing of Fig. 2b leading to pasting of total ERK and β -Actin blots not intended for this

experiment. These blots have now been replaced with the total ERK and β -Actin panels that were generated for this experiment. The corrected Fig. 2b is shown here. However, the conclusion made from the experiment remains unaltered, and this correction has no bearing on the final outcome of the study. The inconvenience caused by this error is deeply regretted.
