Correction to: *Cellular & Molecular Immunology* <https://doi.org/10.1038/cmi.2010.15>, published 26 April 2010

In this article, published online on 26 April 2010, there was an unintended error in Fig. 2a during proof revision process when submitted higher resolution figures as the typeset company needs, leading to that ICAM-1 FACS staining pictures are the same

for A20/LacZ group and A20/LIGHT group. The picture of ICAM-1 FACS staining for A20/LacZ group has now been replaced with the correct picture which was shown in the proof. The corrected Fig. 2a is shown here. We are sorry for the inconvenience caused by this error.
