Author Correction: Crystal structure and optical properties of a high-density InGaN nanoumbrella array as a white light source without phosphors

Tetsuya Kouno, Masaru Sakai, Katsumi Kishino, Akihiko Kikuchi, Naoki Umehara and Kazuhiko Hara

Correction to: NPG Asia Materials https://doi.org/10.1038/am.2016.99 published online 22 July 2016

In Results and discussion, '..., frequency doubled 532 nm YAG laser...' should read '..., frequency doubled 532 nm laser...'.

The authors had misrecognized one of the product specifications of the laser used for the experiments. However, it has no effects on the experimental results, discussions, and conclusions. The authors apologize for any inconvenience caused.

The original article has been corrected.
