McBride<sup>6</sup>, Ana Morales<sup>1</sup>, Matthew R. G. Taylor<sup>7</sup>, Matteo Vatta<sup>8,9,10</sup> and Stephanie M. Ware<sup>9,11</sup> on behalf of the ACMG Professional Practice and Guidelines Committee

*Genetics in Medicine* (2019) 21:2406; <https://doi.org/10.1038/s41436-019-0521-2>

Correction to: *Genetics in Medicine*; <https://doi.org/10.1038/s41436-018-0039-z>, published online 14 June 2018

In the original version of this Article, the Statement on Conflict of Interest originally submitted by the authors was not published and should have read:

Disclosure: R.E.H. has served as a consultant for Array Biopharma. C.Y.H. has served as a consultant and has received research support from MyoKardia. D.P.J. has served as a consultant for Array Biopharma, Eidos Therapeutics, Glaxo Smith Kline, Invitae, MyoKardia, and Pfizer. M.R.G.T. has served as a consultant for Array Biopharma, Guidepoint Global, and Wellpoint, Inc., and has served as a speaker for GeneDx. M.V. is employed by Invitae Corporation. The other authors declare no conflicts of interest.

Furthermore, in the Acknowledgements section we neglected to state that:

This article is an abbreviated version of “Genetic Evaluation of Cardiomyopathy—a Heart Failure Society of America Practice Guideline,” published in *Journal of Cardiac Failure*, and on which the American College of Medical Genetics and Genomics and the Heart Failure Society of America collaborated.

The PDF and HTML versions of the Article have now been corrected with the above.

Correction to: *Genet Med* 2019; <https://doi.org/10.1038/s41436-019-0493-2> published online 11 April 2019

In the original version of this Article, the affiliation details for Drs. Jordan Lerner-Ellis and George Charames did not include the Department of Pathology and Laboratory Medicine at the University of Toronto. In addition, Drs. Jordan Lerner-Ellis and George Charames were incorrectly affiliated with the institute of Health Policy, Management and Evaluation at the University of Toronto. These errors have now been corrected in both the PDF and HTML versions of the Article.
