Publisher Correction: Aerodynamic generation of electric fields in turbulence laden with charged inertial particles

M. Di Renzo ^{1,2} & J. Urzay¹

Correction to: *Nature Communications* <https://doi.org/10.1038/s41467-018-03958-7>; published online 26 April 2018

The original version of this Article contained an error in the last sentence of the second paragraph of the ‘Atmospheric rarefaction effects’ section of the Results, which incorrectly read ‘The other one emulates the rarefied, CO₂-rich Martian atmosphere ($\mu_\delta = 1.3 \times 10^{-5} \text{ N s m}^{-2}$) at 6.9 mbar and 210 K, which gives $\rho_\delta = 1.6 \times 10^{-12} \text{ kg m}^{-3}$.’ The correct version states ‘ $\rho_\delta = 1.6 \times 10^{-2} \text{ kg m}^{-3}$ ’ in place of ‘ $\rho_\delta = 1.6 \times 10^{-12} \text{ kg m}^{-3}$ ’. This has been corrected in both the PDF and HTML versions of the Article.
