Author Correction: Nuclear lipid droplets derive from a lipoprotein precursor and regulate phosphatidylcholine synthesis

Kamil Sołtysik¹, Yuki Ohsaki¹, Tsuyako Tatematsu¹, Jinglei Cheng¹ & Toyoshi Fujimoto ¹

Correction to: Nature Communications https://doi.org/10.1038/s41467-019-08411-x, published online 28 Jan 2019.

The original version of this Article contained errors in the Abstract and Introduction, whereby CCT α was incorrectly defined as an abbreviation of CDP-choline diacylglycerol phosphotransferase α , instead of CTP: phosphocholine cytidylyltransferase α . This has now been corrected in both the PDF and HTML versions of the Article.
